

1 + 2 Days Divine Principle Seminar How to Restore Human Values Bucharest, Romania, 8. – 9. June 2013

Andrei Predesku

Greetings from Romania!

This week Romania CARP organized 1 day and 2 days Divine Principle Workshop for our guest. This time we combined them into one.

It was challenging to organize the workshops because we were half of the number of people doing activities, than usual. But our focus was to create unity and harmony, to put our Jeongseong everyday and to hope for the best. Before the workshop there was just one confirmation for the 2 days program so we were even thinking to cancel it. But eventually the guests that came for 1 day workshop decided to stay more and to participate in the evening lectures program and also to come for the second day. We were happy to see such support from the spiritual world and Heavenly Parents. It gave us confidence to continue our efforts in the next coming week with more dedication and unified JeongSeong.

Thank you Heavenly Parents and True Parents for the amazing grace to participate in such providential works!

*Principle of Creation, Human Fall, Eschatology, The Messiah – Orasanu Raluka -
Principle of Restoration – Torok Robert*

Parallels of History, The Second Advent - SES – Predescu Andrei

Workshop Reflections:

Gabriel (25, Law School student + IT domain employee)

"A very beautiful workshop, a place full of positive and loving people. I have started to understand things that I've read and things that I've experienced even if not so completely."

Gabriela (18, High school student)

"These two days, for me, have been beautiful and full of joy and inspiration. I have learned new things and the lectures have helped me to enrich my vision on our Creator, on life, on God's values and the attitude I should have from now on towards myself and the others.

Here I have met beautiful people, people which want to be good, who want the big change, the change that is so longed for by each one and humanity.

I want to thank everyone for their goodness and for everything I have learned from each one. I thank God for sending Yumi to me, and to James for accepting to care for me in her stead.

Romania CARP, a great experience for me until now! 😊 Gabriela."

P. Ioana (25, saleswoman)

"In these two days I have strengthened even more my faith in God and in Jesus. Of course, each time when I meet my brothers and sisters I reflect about upon my life and of those around me. These people have changed my life, ... and I thank them for that.

With all my love, your sister Ioana."
