

HARP Winter Workshop
28th of December - 05th of January '13

HEARTCORE – Wie im Himmel, so auf Erden
(- on earth, as it is **in heaven**)

Under this Motto about 100 Blessed Children were coming together to this year's Winter Workshop in Bad Camberg Neumühle (Frankfurt). Besides mainly Germans there were a few Austrian and Swiss Participants. Moving with the times the Motto was chosen with a clear awareness of True Father still being with us in the Spiritual World now and a straight view to Foundation Day. **True Father**, who showed us a Life of true strength, true devotion and true love here on earth, is now continuing this awesome lifestyle in the spiritual world "**in heaven**", restless for Gods Victory. Now we want to reflect him and his work here on earth. However wonderful this all sounds, how can we do that? At first we need to actually understand what exactly we want to reflect, what did True Father do his whole life, what is the CORE of all that, hiding behind the big names of the Unification Church etc. and what is his legacy with which we can continue his work. Only after finding and knowing the CORE, we can really become **HARDCORE** in our lives. –that is what we tried to do at that workshop, during that week off from school. Divided into 14 so called "Families" (Teams), the Participants experienced Testimonies (from Claus Dubisz, Anne Sölva), Lectures about True Fathers Legacy (Mark Bramwell), the Family Pledge (Dieter Schmidt) and the Divine Principle (Detlef Klemme). The afternoon and evening Schedule was filled with Sports, Yute, Discussion groups, Sharing's... We are sure that once during that week, if not more often, True Father was with us. We did a Healing Session singing "Tschambumonim og mansei" for sending energy to True Parents, especially to True Mother, and a few among us had beautiful spiritual experiences. At the 1st of January we celebrated a Sunday service with the local Community. In its framework there was the yearly Purity-Ringceremony in which nine 2nd Gens gave a public promise to keep their Purity and then received a silver ring that shall remind them of their promise. We hope that we all could take something with us which we can establish in our life and understand even more with the help of our family.

Sollinde Röhring,
on behalf of the German HARP Committee 2012.

"You should not only represent me in name but in responsibility." True Father
