

Essay competition entiteled: “As a Peace Loving Global Citizen”

25 february 2017, Bilisht

It has finished successfully the essay competition entiteled: “As a Peace Loving Global Citizen” based on True Father’s autobiography. A much expected activity, full of emotions, joy, love and in the same time worry.

The activity was held on 25/02/2017 in Devoll city, that always has been a welcoming city of Heavenly Parent providence, for fund raising, witnessing, also in different activities held from time to time. There is no exeption for widely reading Autobiography activity, in which, many middle and high school students wrote essays.

After receiving the permission from the local Schooling Directory, we intriduced the project in high schools and we met with the principals and literature teachers, whom we gave the proper instuctions. Analyzing the development of the activity we could feel True Father’s support and work from spiritual world, through our work in local level. After lots of difficulties we could make all high schools of the city to be involved in the activity.

More than 80 books were distributed for the chosen students and for their teachers and in total there were around 60 essays. We could see a wide range of how the book inspired their hearts.

Even though they did not know True Father, it became very close to them. It was so nice seeing students with autobiography in their hands. As a closure of the activity we held a cultural show with different performances including: singing, traditional dance, recitinh etc. The participants were high school students, teachers, local public figures and new ApP appointed a week before.

5 awards were given for the best essays, 3 awards as the first, the second and the third place, also two special awards: “Dritëro Agolli” and the big award “Ambassador of Peace”

Above all this is a victory for Heaven, we offer it purely.

Let us bring victory for vision 2020 and to make proud True Mother.
