EMPOWER x Heavenly Top Gun EUME Report: Witnessing Workshop

EMPOWER prepared itself for a big transition during the witnessing workshop in Mullet, Albania. Not only are participants preparing to go witnessing in one of the mission countries; Albania, Moldova, and the UK, they also got ready for the official opening ceremony for the launch of **Heavenly Top Gun (HTG) EUME!**

During this exciting workshop, participants received Divine Principle lectures from Gani Rroshi which spanned for 5 days, the contents beginning from Introduction all the way to True Parents Life Course. It was an intensive lecture course as participants prepared to give their own Divine Principle lectures, some for the first time, to prepare to witness and share the Principle. This lecture series led to Chambumo-Ron content given by Bogdan Pammer who shared further about True Parents life course and the role of the Only Begotten Daughter.

Participants also had a chance to prepare a powerful performance song together, “Hallelujah, Salvation and Glory” to worship and feel the holy spirit. EMPOWER also had an outing day in Tirana to explore the city and visit the Peace Embassy, the building given by True Mother to Shin Albania, where we were welcomed by Manjola Vasmatics, national leader of Albania.

The workshop ended with the Opening ceremony of **HTG EUME** where participants received death valley holy salt and HTG badges. Vigil prayer was held on the final evening together as participants offered sincere devotion for their mission countries, to become *Pure Water* for Heavenly Parents and True Parents for the next 4 months.

Let's pray for our **HTG EUME** teams success and victory who are on the frontline!

If you would like to support **HTG EUME** teams, feel free to offer a donation, more details are on our website: <https://empower-eume.org/funding/>

FUNDING PAGE

SUPPORT EMPOWER'S VISION – GIVE A GIFT TODAY!

As we continue to build and expand our program, we are grateful for any financial support that helps us sustain our progress. While we've become more self-reliant this year, we still need additional resources to fuel the next phase of growth and ensure we can fully support our participants and staff's expenses. Your donations will go toward funding key initiatives such as workshops, transportation, food and extra material. With your help, we can maintain our momentum and keep providing impactful programs and services. Our long-term vision is to become fully self-sustaining, and we're well on our way. However, your generosity helps us achieve that goal with confidence.
