

WFWP Austria's Advent Cafe in Vienna

Renate Amesbauer
December 6, 2025

Celebrating in the Advent season is a very good opportunity to gather people together for networking and spending time together!

As we are a multicultural society in Vienna (Due to the existence of the UN and as a result of a great number of refugees from various countries in conflict and or other desperate situations), it is a chance to

create the atmosphere of being a World Family, one Family under God. We seek to create possibilities to meet across cultural, national borders, as often people rather stay within their diaspora communities. Several of the attendees have their own organizations, playing an active role in shaping society.

To come together from a dozen or more nations, in a group of 50 + persons, is an astonishing experience for many.

At the same time we shared our founding vision as WFWP, and reported about recent activities, this time about the 22nd WFWP-EUME conference.

Also we welcomed musical contributions from a young lady from Syria and sang Christmas songs together. Cake and savory snacks contributed to a welcoming atmosphere.
