WFWP Norway organized a second meeting under the theme "Peace Starts with Me" at a member's home. In a series of follow up meetings after the "Peace Starts with Me" event in Vienna last April, we gathered to discuss what peace means for each of us.

Our host, Jane Toresen, gave a talk about how the concept of "Peace starts with me" connects to our greater purpose in life. We had an engaging discussion on the topics of humility, self-esteem, and the power and difficulty of loving your enemy to name a few.

It was a lovely evening with tea, inspiring music, and lively discussion.
