

National Workshop “One Family Under God”

Training Center, Tirana Albania, 23-26 May 2013

Manjola Vasmatic

We would like to share with you about the 4 day DP workshop organized from 23-26 may in our training center. There were 10 DP lectures given in these days, where the essence of the Divine Principle was passed on to participants. In total there were 30 people, from which for the first time were 8 people.

As the group was small, it was easier for staff members to create a very family atmosphere with guests, and help them to understand better and deeper the lectures.

We would like to thank workshop coordinator, Manjola Vasmatic, MC, lecturers, kitchen staff, prayer staff and maintenance staff. But mostly we would like to thank Heavenly Parent and True Parents who motivate us to work intensively in taking care of our guests.

We will share with you the feelings of some of participants through their reflections:

“I received very valuable lectures for my life. At first, I didn’t understand well what we were doing, but at the end I felt very happy and understood deeply some things. Even last night I saw Messiah, Sun Myung Moon in my dream, where I could understand and feel him better. “

“I believed in God, but I didn’t know how I did, now I think that I was believing just a little, and not from my depth of my heart and spirit. At this moment I’m writing I’m thinking: Ah, if I would know this before, that God sent True Parent on earth, and I could meet him.”

“The lectures we got were like a short essay compare to truth of life of a person related with God. These lectures were a present for me given to me. Thank you Heavenly parent for all presents and for brothers and sisters that I could meet.”

“As far as I could know through lectures for this man (True Father), I like his action and Allah have mercy on him!”
