February 11, 2022

World Summit 2022 Opening Ceremony -- Broadcast from Republic of Korea's National Assembly, National Diet of Japan and Jamsil Lotte Hotel

Distinguished leaders from all faiths, nations and backgrounds: We are grateful for those of you who could make it to this imperative World Summit 2022 and saw through all the challenges. How vital your presence and participation is for the reunification of North Korea and South Korea. We thank all the millions who are watching online from 157 countries. I want to thank the Universal Peace Federation and the Washington Times Foundation for sponsoring this historic event. I sincerely thank Prime Minister Samdech Hun Sen of the Royal Kingdom of Cambodia for understanding and supporting Mother Moon's work for peace. Also, I want to thank former secretary general, Ban Ki-moon, who

has an extraordinary record leading the United Nations, standing strong against terrorism and truly being a peacemaker for all nations.

I was just here in Korea last December to join Mother Moon and prestigious leaders from all over the world at the Interfaith Prayer Rally for the Reunification of Korea.

She had summoned faith leaders to come to pray for North Korea, China, Russia, South Korea, Japan, America, Cambodia and all the nations of the world. She set up a profound spiritual foundation of prayer to bring peace between North Korea and South Korea. Through the Second Interfaith Rally of Hope with the former vice president Mike Pence, a great impact was felt all over Korea and the world. We continue to pray and stand in complete hope for and belief in seeing the realization of North and South Korea reunifying.

Former vice president Pence, we are inspired to see you at the Rallies of Hope, Think Tank 2022 and now at World Summit 2022 affirming that only by honoring God can we end this sad division of the beautiful Korean people. Only with God can we bring this divided world together as one family.

As the Scripture says, (in Ephesians 6:12), "For we do not wrestle against flesh and blood, but against principalities, against powers, against the rulers of the darkness of this world, against, spiritual wickedness in high places.

Our battle is spiritual and spiritual battles can only be won with the spiritual weapons of truth and love. Second Corinthians 10:4 reminds us, "For the weapons of our warfare are not of the flesh but have divine power to destroy strongholds."

That is why we are here with faith leaders who come now to pray that the walls will come down. However, spiritual leaders alone cannot complete the task of making a peaceful world. We must go forward together with political leaders as they are called by God to restore and reconstitute this nation and all nations into the ideal that God has always sought.

We are fighting for our future generations. We must bring our children to understand that we reap what we sow. If we sow with our service, the love and truth of God, I believe that we along with our generations will reap blessed families, marriages, communities and nations. This is how the young people of our nations will see and discover the key to bringing unity and peace.

I had the blessing of meeting Mother Moon and I want to thank her for the courageous path that she and her husband Rev. Moon began when they, as Christian leaders, escaped the communist persecution of Christians in North Korea. Rev. Moon suffered in a death camp for two years and eight months and yet came out of that suffering with a heart of love to heal North Korea and the world.

Mother Moon came to the South as a five-year-old girl, with her devout mother and grandmother, to follow Jesus' call. She has kept the dream and call of bringing her homeland back together again. Mother Moon, we all came here because we want you to know that you are succeeding, and the peaceful reunification of Korea is sure to come.

We believe in your assignment and see your fruit for peace and family. By the love of Jesus and the healing power of God, we believe all faiths and political leaders, together with Mother Moon, will unite in reconciliation.

Because she has shared agape love, Chairman Kim has invited her to come to the North. Mother Moon, I want to go with you to help North Korea begin a new path of prosperity and peace.
