---

Clint Woods has contributed greatly and will be remembered.

I got to fish for Dorado with him in Jardim, it was a great adventure. We worked on various projects over the years and he always brought an energy, sincerity and love for God and True Parents. He has been famous in his salmon fishing, mentoring, pastoring in Billings Montana while living on the ranch in the family for maybe six generations. His family was with him as he made his transition

Thank you for helping them all at this time
