

## WFWP Portugal: Creating A Culture Of Peace Through The Pink October

Marta de Carvalho  
October 10, 2025

The Women's Federation for World Peace (WFWP) Portugal organized a special event on October 10, 2025, at the National Headquarters of The Church of Jesus Christ of Latter-day Saints in Lisbon. The meeting focused on promoting Pink October, the international campaign for early breast cancer prevention, while honouring Dr. Hak Ja Han Moon, Co-Founder of WFWP and a global advocate for peace and women's leadership.

The program, which gathered over 45 participants, included cultural, musical, and artistic presentations and featured national and international guests from Bangladesh, Ireland, Brazil, and the United Kingdom. The event also strengthened partnerships among peace ambassador's organizations and concluded with a series of follow-up activities that extended through October 10, marking three days of unity, solidarity, and inspiration for WFP Portugal.
