The main porpoise was to educate those deputies who accept to become IAPP- Togo members, about the IAPP, who are its founders, the works of the founders in the field of world peace and what the founders are expecting from the IAPP members.

Among 38 members who have given their name to be a member of the IAPP Togo, 13 deputies who are presents at Lomé took part in the conference.

After the national anthem and prayer, Honorable Gnakouafre Amba Sabia gave the opening speech. She emphasized the importance of establishing the IAPP and congratulated the Founders for their initiatives and their works to expand a culture of peace.

Participants were all satisfied and proud of what they learned during this conference. They testified that the knowledge they have acquired in this conference will help them in their works so they hope to receive more formation in order to strengthen their capacity in this area. This is why they are committed to establish the IAPP in Togo in a short time.
