

REPORT

by Lubin Argjir, City Leader von Vlora, Albania

Dear brothers and sisters from Austria - Greetings from Vlora city!

In this report we would like to share some of the latest activities which took place in our center.

Part of the latest program on European level **“matching between the communities”** the Albanian centers and European communities. We felt very lucky that an Austrian family could visit our center (a father with his three children and his daughter in law). Their stay in our center lasted for about 10 days. The Sunday service word was given by Mr. Wolfgang Czerny, where he could share his life testimony on his life of faith and the absolute attendance toward True Parents.

During the week the family intensively did witnessing, where each of them in their unique way wanted to contribute In our center but in the same time gain some witnessing experiences from our nation. It was a very special emotion seeing their

guests visiting the center, as a result in our weakly schedule we decided to organize a one day workshop by doing so we could invite their guest to attend the workshop. On the workshop participate 30 participants out of which 15 where new guest.

This young guest where the focus of this workshop which started attending the center regularly. Having this new guest we decided to focus in the first chapter of the divine principle “the principle of creation” so we could gather them all and give this lectures. At the beginning of the workshop it could be noticed a high atmosphere, even though the guests where witnessed just recently they could naturally relate to our staff.

“You are the fruit of history the center of this age and an ancestor of the future”.
Sun Myung Moon

Being inspired from this workshop we took another decision, organizing an open Sunday service, by doing so we could make possible to invite the new guest to the service.

On 15,04,2017 we did the open Sunday service where 30 people could attend. We again asked Mr. Wolfgang to give the service word here after some prayers he decided to focus his sermon word on his personal spiritual experiences with the

spirit world. He titled the sermon “Let our light shine” he emphasize that we should be careful what we listen to, what we see and what we say determines if our sprit shine or not.

Very interesting the fact that after the service the members and the guest where willing to have a personal talk with Mr. Wolfgang.

We feel really grateful for the love, care and the wisdom we could gain from this family.

I would like to share some of the member's reflections:

Siva: it is really a great fortune meeting such family and a person who had a personal experiences with true parents. When you see that wonderful family you can feel that Gods love is always present there and each one of us must work to have a heart filled with love compassion and sincerity.

Zenjel: I could see how a family looks like in the Cheon Il Gook nation.

Endrit: I could realize the value of a blessed family and the greatness that such family has and I could get an inspiration from a person that could live with True Parents.

Mariola: this week the atmosphere in the center was special because we could experience having in our center one of the most amazing family that I have seen in my life, seeing the resemblance of God's love. I was very impressed by their way of communication they had with each other but also with us and with every guest.
