

FFWPU World Mission Headquarters: Letter to True Mother - Members joining in Alajuela, Costa Rica

Oscar Mario Barquero
January 13, 2025.

Dear True Mother,

We send warm greetings from all the members of the Strategic Growth church in Alajuela, Costa Rica. I would like to report on the family witnessing, restoration of inactive members, and Single Blessing candidate of Alajuela Church. I hope this letter will be able to give you some strength.

First of all, I am pleased to report that five new guests have been attending Sunday services. They are the family members of a church member. This is the result of visiting their house every 15 days and constantly educating them on the Divine Principle.

They are the father, mother, brother, nephew, and niece of a church member, and they accept and are interested in all the educational content we have presented. The parents of this member expressed their desire to receive the Holy Blessing in April 2024. Therefore, we are preparing for the Blessing education and all the internal and external conditions to be completed.

Among the five witnessing guests, the 15-year-old niece has been interested in Korean culture since she was a child and is currently studying Korean. She says that traveling to Korea is her dream. The positive influence of the Korean Hallyu Wave has made it possible for her to naturally accept the fact that True Parents are on earth and were born in Korea. We will continue to educate and guide her so that she can participate in the 7-day Youth Workshop to be held nationwide this month.

Next, I would like to report on the restoration of inactive members, and Single Blessing candidates.

As a result of working together with the church members, three inactive Blessed families have returned and are attending Sunday services regularly. In addition, the Alajuela Church has one candidate for the Single Blessing. We are continuously supporting this young man so that he can go through the matching process smoothly and receive the Blessing in April this year.

The members of the Alajuela Church are offering sincere devotions with the heart of hoping to unite with True Mother for the sake of the Will. We are mainly focusing on finding the people prepared by Heavenly Parent and witnessing to family, colleagues, and friends through offering Cheon Shim Won devotion in the church and especially within the family. We will continue to confidently witness those closest to us with True Love.

We will work with the desire to offer greater joy as true filial sons and daughters for the Entrance Ceremony of the Cheon Il Sanctum in the Cheon Won Gung, and we are determined to report more hopeful results to True Mother next month. True Mother, we love you!
