October 14, 2019

St. Petersburg, Russia -- "Ecology of Life" was the theme of a creative meeting attended by 23 persons.

The event, which was held on October 14, 2019, in the Auroville vegetarian café, was another in a series of creative meetings organized by Natalia Chigrina, the leader of the Universal Peace Federation of Northwest Russia.

The participants spoke, sang, and read poetry -- not only about the protection of nature but also about harmonious relations in all areas of life.

Living for the sake of others is a basic "environmental" principle, Mrs. Chigrina said. UPF also introduced the guests to the annual Eco-Losevo Ecological Festival project.
