FFWPU Latvia: After the Turkey workshop, an open Sunday Service for university students was held in Latvia. Once a month, we usually conduct open Sunday Services for new guests. After the 7-day Divine Principle workshop in Antalya, Turkey, the number of new guests that come to our center has significantly grown. Therefore, now we are preparing them for active work in the church and fruitful relationships with our members. On February 22 four new students and guests attended the open Sunday Service. National leader of Latvia, Dr. Ando, spoke about True Parents' life course and vision, and topic "Let us create One Family Under God by living for others."

Our new guests attended our Korean lesson. Then they created "The Dream Team" as a home group to study the Korean language and the Divine Principle on a weekly basis. One new member decided to attend the 21-day Divine Principle workshop that is scheduled to be held this summer.
