The new book "Kisses of the Wind - Diary of the Clairvoyant" was written and presented by Maga Katharina Bauer, the Vice President of Women's Federation for World Peace in Austria.

According to "Katja Queen" (Katharina) and her book, more people should let the love of God into their hearts and together create a future in which even small things are valued, like a tulip in the cold snow.

For Katharina, this passion for nature and her constant faith in God opened her heart to the supernatural. She made acquaintances with countless spirits and the souls of her deceased grandparents, and thus became a medium that recognizes the emotions of her fellow human beings, as if wrapped in clouds, with the naked eye.

Endless encounters with God and His followers gradually opened her eyes to the other world of colours, voices, smells and feelings. She explained these findings to the audience.

After the presentation, the audience reflected on and discussed Katharina's guidance and experiences.
