We are pleased to share the report on the Women's Federation for World Peace International (WFWPI) 33rd anniversary event, which took place on April 12, 2025, at the Sapphire Ballroom of the Lotte Hotel World in Seoul, Republic of Korea. This momentous occasion was held in conjunction with the World Summit organized by the Universal Peace Federation (UPF), highlighting our commitment to fostering global peace through cooperation, reconciliation, and healing.

The theme of this year's anniversary, "Women Charting a Peaceful Future Through Cooperation, Reconciliation and Healing," underscores our mission and the vital role women play as peacebuilders and leaders. It was a joy to gather with distinguished guests, including VIPs and WFWPI leaders, as we celebrated the spirit of unity and collaboration among women worldwide. This

event marked our first in-person gathering since the COVID-19 pandemic, allowing us to reconnect and strengthen our friendships.

We invite you to download the full report on our website to learn more about the inspiring moments and initiatives from this significant event. Your engagement and support are crucial as we continue our journey toward peace and empowerment for future generations.
