

## Graduation II Shim

Warsaw, Poland, February 18, 2018

By Martha Kral

**I**l Shim is a program and training for 2nd Generation. During the program, we organized 10 sessions where we could support the youth. The activities were created to train the youth in the following points:

- Growing your Life of Faith by supporting you in creating a unique relationship with God and discovering tools to support that relationship.
- Deepening your Understanding of Unificationist Traditions by providing the resources for you to discover the value and significance of aspects of

our faith such as True Parents, abstinence before marriage, the Blessing, and living for the sake of others.

- Developing your Relationship with your Parents by encouraging opportunities to develop a healthy relationship with your parents through open communication and deepening trust.
- Discovering Ways to Get Involved by connecting you to the people who can help you find ways of serving and getting involved in your local community that are inspiring to you.

On the 16th and 17th February, we have the honor to Graduate 18 participants in our Il Shim Program and Training for 2nd Generation.

During the event was organized the Ring Ceremony, when the participants received their purity ring, as a commitment of purity and integrity. The family of the participants had the opportunity to open their hearts to each other through the Family Vows.

We received words of appreciation from our elders' members, wished all the best for our 2nd Generation.!
