64 attend Heavenly Tribal Messiah workshop in Game-Kove Agbelouvé, Togo

Koffi David Marcel July 29, 2016

We had a Heavenly Tribal Messiah workshop on July 29, 2016 in Game-Kove Agbelouvé, situated 60 km north of Lome. This event organized in cooperation with the village chief, who himself became a blessed family at the last blessing event.

We had 64 participants in total. All the lectures were based on the true family values and the importance of blessing. We noted a great satisfaction from all the participants, who promised to follow the process to establish true families through the blessing which will be held in the coming days.
