Reflections

Mrs. Floramie VC Paudel, An Elder blessed family,

I have learned today about the foundation by highlighting the significance of Jesus as the first coming of the Only Begotten Son and the mission of True Parents as the second advent to fulfill what Jesus couldn't accomplish. The concept of the Only Begotten Daughter and the Holy Wedding resonated deeply, emphasizing the divine partnership required for spiritual fulfillment.

I realized that the focus shifted to True Mother as the central axis of providential history, marking the commencement of a new era from 2013 onwards.

My commitment day by day will strengthen because of the lectures learned today. I will live with the right identity, right activity, and right direction so that I will be worthy to be one with Beloved True Mother having one with heart, love, and words in my daily life.

Khamsahamnida, Saranghamnida Victorious True Parents, our Beloved True Mother.

Rev. Binod Dangi: Elder blessed family, UPF Nepal Secretary General

I felt so blessed to get these great lectures from Korean elders and scholars. True Parents are so valuable that they carry the lineage of God, HP. They educate us about the Divine Principle and way of God entered life as blessed family. True Mother the first coming of the only begotten of God revealed the truth and made more clearer about our direction and she showed how to live a life of faith. Now I reflect on living a life with the right identity and the right direction. I am doing devotion through CheonSim Won night vigil prayer and want to witness many people and support True Mother's providence.

Thank you!

Rev. Birendra Shrestha, HPHC Growth Department head

Thank you, Heavenly Parent and True Parents, for your blessing to our life. Today I felt how much True Mother sacrificed and devoted to serving humanity. But we did not understand the True identity. Today I reflected to myself that we need to study more about the life of True Parents and realized the essence of True Parents on earth for humanity. I realized that True Mother is not creating her principle she is organizing and making us clear about the real identity of True Parents on earth and the role of Yin God's Female counterpart in the restoration of humanity. I could be able to understand the role of True Mother, the holy Begotten daughter is to complete the providence and she is chosen by God, HP to fulfill HP's Providence along with True Father.

Thank you so much. May HP and TPs Bless you all.

Sewa Khanal, A Blessed Child

A true mother is only the begotten daughter born after 6000 years of history she is the first coming not second or third. Today I clearly understand that the True Mother is the center pillar for the completion of the providence and Heavenly Parents must be completed on earth first not in heaven. I felt that we need to support True Mother to complete Heavenly Parent Providence while she is on earth. As a second generation I am still studying and learning, I will devote myself to supporting True Mother from my side. Thank you to all the experts and senior lecturers of the video who did the research for years and presented to the world the Truth, Value, and Stature of True Parents. It was amazing.

Thank you so much. Khamsahamnida
