Participants

Ram Bahadur Limbu, CheonBo Family, and FFWPU Dharan center leader:

Everyday Peace Net Morning Devotion helps us to connect to Heavenly Parent and True Parents. This morning devotion is a main factor in saving our spiritual life. I want to thank Rev. Prakash Babu Thapa who continued this morning devotion, overcoming all the difficulties and challenges on the way, as he never gave up. He always encourages us not to give up doing devotion and connect with True Mother. During Covid-19 there was many difficulties in our Nepal Movement and in our Blessed families, but he always inspired us and give us hope through this morning devotion.

I believe we grow up through the everyday devotion centered on our National Leader. We never lost our faith whatever obstacles came on our way; and this fighting energy came through this

Peace Net Morning Devotion. Thank you all for joining the devotion and congratulations to all of us for reaching 1200-Day of National Morning Devotion. We will continue to do devotion and be ready to support True Mother always. Thank you very much.

Miss. Ruchi Limbu, Second Gen Representative:

Namaste and warm greetings to all. Firstly, I want to congratulate all for going beyond the 1200-Day of National Morning Devotion. I believe that through this Morning Devotion we can communicate with Heavenly Parent and True Parents and beware and stay away from the evil environment. I feel the spiritual atmosphere while I am Praying and doing HDK. I encourage all to continue the morning devotion and invite others to join. Thank you so much to all. May Heavenly Parent and True Parent Bless you all.

Mrs. Ambika Pant, Senior Blessed Family:

Good morning to senior leaders, Blessed families, Second Gen, Peace Ambassadors, and all brothers and sisters. I thank Rev. Prakash Babu Thapa our national leader who allowed me to give reflection in front of you all. Before Covid 19, we used to do HDK from our homes and centers but after COVID-19, we started doing morning devotion on Zoom online centering on our National leader. This technology combines and connects all of us to attend the morning devotion at the same time.

This peace net morning devotion helped us to unite with each other and grow up better. Through this Peace Net Morning Devotion, I understood many things about True Mother and her leadership. I realized that she is always pushing us and making us be clear about the Heavenly Parent providence. I knew the HP providence was urgent and we must put our hands together and support our beloved True Mother. I am always ready from anywhere to contribute to Heavenly Parent and True Parents providence. I want to congratulate all today and encourage all to unite with our True Mother to complete the Heavenly Parent Providence. Thank you very much and Namaste to all. Have a blessed day.

Mr. Achut Parajuli, CheonBo Family:

Namaste, Good morning to all. Congratulations to all of us for going beyond the 1200-Day of National Morning Devotion. This came to be a success due to our continuity in doing devotion. I praise our national leader who never missed the morning devotion and continuously guided us daily. He keeps on encouraging us to do the devotion. Devotion is the only way to save us spiritually, some time we may be out of track, but this devotion helped me a lot to be aware and get on the right track.

Let us do our best and help each other to grow ourselves. This morning devotion became my way of life and connected my spirit with my Heavenly Parent and True Parents. Thank you to all who remind me and give me hope to do devotion and make me spiritually refreshed every day. Congratulations to all once again. I conclude here my reflection. Thank you very much.

Dharmee Bhusal Kamana, IAYSP - Nepal President:
