

# Japanese Culture Event

London, United Kingdom, 22. December 2013

**C**oncept: This event had a few purposes. Through the Japanese culture, we like to introduce FFWPU activity as a first step of realising one world family so that we will have deeper relationship as brothers and sisters. We would also like to bring our guests who came to this event to 1day WS eventually.

Our goal: 50 guests.

We had determination which we would do our best from the beginning till the end, although we would not know how the result would be even though we had been investing our time and effort so much for this event.

The door was going to be open from 3:45pm but, guest started arriving from 3:00pm and by 4:00pm the venue was already full with about 40 guests and 60 members.

It was impossible to do everything by ourselves but with help from Jeong Seong Hwe members cooking foods also many 2nd generation's help, we could have a successful event.

One of guests from Malaysian origin was so inspired by Robert's talk also we heard that people liked Peter's song very much. The wait team's break dance was very exciting too.

We would like to return to Heaven this success as God's grace. We also reflect very much about good point and points which we should improve, so that we can be better in the future and we would do our best to plan for continuously bringing people to 1day WS and an event Origami class which we plan to do on 18.

Thank you so much everyone.

Kimika Tokuoka
