

WFWP Russia's Intercultural And Interreligious Family Festival Family World

Olga Vakulinskaya
April 6, 2024

On April 6, 2024, WFWP Russia held its annual Intercultural Family Festival in the Central House of cultural workers for the 8th time. Many social NGOs, charity funds and large family and parent organizations became partners in this festival. This year we invited wonderful and talented families that represented Armenia, Azerbaijan, China, Syria, Kenya, Mariel Republic and Karelia. In a very creative form, they showed and shared their unique culture, family values and traditions.

This festival promotes true family values and intercultural cooperation. Many young people don't see the example of true love at home and so it is very important to show them that it is possible to create a truly happy family. All participating families and partners expressed their deep gratitude. They said that it is important to hold such

a festival because it gives hope that true intercultural cooperation and world peace are possible.

At the end of the program, one of the partners and a member of jury came to the stage and granted Olga Vakulinskaya, President of WFWP of Russia, "The Dignified Deeds Award."
