

WFWP Moscow, Russia: Lecture on Moral Education at Public School

Olga Vakulinskaya
December 15, 2025

Our moral education program at a public school in Moscow was possible on the foundation of 15 years of social programs giving a chance to schoolchildren to do something good for elderly people or children in need, including the project "Children of Russia for children of Africa".

In December 2025, WFWP president of Russia with her daughter gave a lecture "Consequences of using bad words" for 4th grade schoolchildren. Besides listening very attentively, the children expressed their thoughts on the topic which were very deep. After the lecture they wrote amazingly moving reflections.

The school administration and the teacher expressed their desire to continue cooperation in the field of moral education. They were impressed by the children's reflections.
