

WFWP Russia's New Year's Concert for Elderly People

Olga Vakulinskaya
December 27, 2025

WFWP of Russia organized a New Year's concert of the children's dancing and singing ensemble "Angels of peace" at the Elderly people's House "Opeka". The children age 4-12 gave a 1 hour concert with many different costumes. Elderly people were moved to tears and asked the children to come to them more often.

After the concert the children were tired, but when the administration of the House asked whether they wanted to visit and to sing a song for those Elderly men and women who can only stay in bed, all the

children willingly expressed their desire to go.

Elementary school children of one public school made very beautiful New Year's congratulatory cards. The elderly people were so moved and grateful. For some of them it was even difficult to believe that such a beautiful card can be given to them.

Those elderly people who could listen to the songs while staying in bed were so happy. Some of them kept repeating with tears: Thank you so much that you have come to us!
