

FFWPU Bolivia Hosted a Blessing Education Seminar for New Members

Hilda Claros de Jitto
November 24, 2024

On November 23 and 24, 2024, FFWPU Bolivia hosted a Blessing Education Seminar for new members, continuing its courses on testimonies and miracles of blessings. Held in the city of Cochabamba, the seminar welcomed 20 young people aged 18 to 30, including 6 new members. Our goal was to help participants begin their training and preparation for the 2025 Blessing.

The seminar emphasized the importance of removing original sin through blessing, highlighting the need for individuals to be free from it in order to partake in the Garden of Eden prepared by God. It stressed that young people should take care of their purity and fulfill their responsibilities.

Mrs. Hilda Claros, the national president of the church in Bolivia, delivered a lecture depicting God metaphorically as someone who selflessly forgets about Himself, like an old person who doesn't even take time to care for Himself, wholly focused on seeking His children throughout history. She urged participants to recognize and appreciate God's immense investment in creation.

Due to humanity's historical separation from God and connection with Satan, inherited everything from fallen angels, people often fail to comprehend God's essence and the value of creation. As True Mother has frequently expressed, understanding God as our Heavenly Parent is crucial to valuing all He has provided. We must connect with God's heart every day - a responsibility neglected since the start of human history. It is now essential to reclaim God's lineage and eliminate Satan's.

The workshop concluded successfully, inspiring all participants to prepare themselves to receive the blessing of marriage and fulfill their responsibilities.

Reflections

Vanessa Mamani: At the Cochabamba seminar, I learned about the value of blessings and how God has been earnestly seeking to offer us blessings, allowing us to become His children through our True Parents. By receiving the blessing, we can break free from original sin, enabling God to have dominion over man and reign as the sovereign of this world.
