December 1, 2022

On December 1st 2022, a celebration of the 30th anniversary of Women's Federation for World Peace was held in Barcelona, Spain.

Marcia de Abreu, National WFWP President and Secretary General of WFWP Europe, offered the welcoming message and shared about the organisation.

Next, a video on the activities carried out internationally and some slides of those events carried out in Spain were shown.

As the guest speaker for the event, Mrs. Ana García Arroyo, doctor in English Philology and writer, very knowledgeable about India, spoke about the esoteric book Linga Purana, and her Vedic predictions about

the Kali Yuga, which describes with great precision what we are seeing in our society today.

To end this part of the program, a musical group called Las Freedas (from Mexico) and a singer Mariana offered a beautiful musical interlude.

In the second part of the program, we had the contribution of Isabel Mercadé, a professor of religious culture, who promoted the creation of the Interreligious Choir for Peace, of the Unesco Association for Interreligious Dialogue (AUDIR).

Thus, through the harmony created, everyone felt enriched and close in their hearts to all.

This presentation was enlivened by Vicky Uribe, soloist of the choir, singing a miscellany of some of her songs, contributing with her colour and spirituality.

We closed the event by blowing out the 30th anniversary candles, and sharing snacks with the hope of undertaking, in this new phase, many projects for cooperation, friendship and peace with women from all over the world.
