

YSP Urals Russia Hosts Two Garbage Picking Events in the Tchapaevsky District

Andrey Burashnov
May 1, 2021

On May 1st 2021, YSP Ural hosted two separate Garbage picking events in the Tchapaevsky district. In the village of Istok, YSP volunteers went about picking up rubbish and also hanging up posters, hoping to inspire the local residents to take more ownership over their public spaces. Even though it was just a small group, residents were impressed by the drastic improvement.

A similar event was coordinated for younger children in collaboration with the local council, teachers and parents. Medals and certificates were awarded to the young volunteers.

This project was the closing event of EcoMarathon2021, a collaborative effort between our "Helping Hands" volunteers and local schools.
