SECRET #1:

"You must understand that the 30,000 Couples Blessing should be accepted as one of the greatest and most historic events ever. How great is the historic background behind it? The event involves the whole world. After conducting the 30,000 Couples Blessing, there is no need for me to perform any more Blessing ceremonies."

SECRET #2:

"The fact that 30,000 young couples from around the world have come together to be married is truly something to be celebrated on a universal scale. It is more wonderful than the marriage of a prince or princess of a king in his palace, which is celebrated by the whole nation. This marriage is on the worldwide level. ."

SECRET #3:

"So I went straight there and matched them until 4:00 a.m., and as I left the hall, it started to rain in torrents. "If I were to have 30,000 couples standing to attention as I blessed them in such weather, with torrential rain and flashes of lightning, it would truly be a historic event!" As this thought flashed across my mind, I was rather pleased and encouraged."
