

PWPA Los Angeles, CA: Online Religious Freedom Conference - January 31

Frank Kaufmann
January 27, 2026

Dear supporters and friends,

We warmly invite you to our upcoming online conference, "**Religious Freedom and Human Rights in a Changing World**," hosted by Professors World Peace Academy – Los Angeles, this **Saturday, January 31**.

At a time when restrictions on religious freedom are increasingly framed as protections for democracy, social order, or individual liberty, this forum offers a timely opportunity to reflect on a central question:

What happens to human rights when freedom of conscience itself is reinterpreted or constrained?

We are honored to welcome **Dr. Holly Folk**, Professor at Western Washington University, a member of CESNUR, and a close collaborator of **Massimo Introvigne**, founder of CESNUR and editor-in-chief of *Bitter Winter*. Dr. Folk has long stood as a strong ally for our movement. She will join **Dr. Thomas Selover** and **Dr. Frank Kaufmann** for expert presentations, followed by an **interactive QandA with all speakers**.
