

WFPW Burkina Faso: Embracing Children in a Painful Environment

Aimee Kabore
March 11, 2023

Women's Federation for World Peace Burkina Faso organized an event in helping children in poor living environment. Our event took place on Saturday March 11, 2023 at Hotel Maternal in Ouagadougou. We had participants.

The Hotel Maternal where we held our event, is a place that welcomes distressful children, abandoned children, orphans, and all children who find themselves without a family.

With the aim of contributing to bring a little joy and happiness to these children, WFPW Burkina Faso organized a program to collect funds and goods in order to support these children. Some of our women ambassadors for peace who contributed a lot were also present that afternoon during the event.

The goods we have collected included diapers, soaps, bags of rice, oil, milk, sugar, clothes and shoes.

Mrs. OUEDRAOGO Edith, the manager of the hotel maternal expressed her deep gratitude to the WFPW Burkina for this thought with regard to these children and thanked very much on behalf of the highest authorities of the hotel and on behalf of all the children for the support provided. About twenty children were present, representing the whole. This hotel is taking care of some handicapped children, about twenty babies from zero to 1-year-old and at least 75 children from 2 to 18 years old.

Mrs. KABORE Aimée, President of WFPW Burkina Faso spoke some few words, introducing first of all our True Mother Dr. Hak Ja Han Moon, as the founder of the WFPW, the true mother of humanity, and the mother of peace. She briefly presented the vision and objectives of the WFPW, emphasizing the major role of mothers, because living currently in the era of women as she said, women must understand better their role in order to fulfill their responsibilities well. Mothers must contribute to the good education of children and succeed in making their family better so that peace can start in the family. Ms. Kabore added that mothers must use their motherly heart to develop a great unconditional love, and sacrificial love not only towards their own children but towards all the children of this world. And it is with this perspective that the WFPW Burkina Faso chose this month of March, month of women, to send their thoughts on the children of the Hotel Maternal.

Mrs. Kabore encouraged the children to sing a song, and children sang a beautiful song which brought great joy and beauty to all the participants.

At the end, one of women peace ambassadors shared some cookies and candies to all the children. We deeply pray that these children will be protected and blessed by our Heavenly Parents and True Parents for eternity.
