

**Grease trap and kitchen connection:**

*2<sup>nd</sup> July*

Sewerage connection has now reached the Hall Kitchen, connecting up the 2 grease traps that have been fitted months previous. With this stage coming to a conclusion we look forward to cleaning up the area and beautifying it. The cottage and pastor house are the last buildings needing connection.

**Grease trap and kitchen connection:**

*2<sup>nd</sup> July*

We have installed a TV in the dining room. This will be used either as a view screen for Sunday School, or to stream Sunday Service so that mothers with young children may still watch the sermon.

## Wood Chopping Working Bee:

6<sup>th</sup> July

Property Manager James Babb has organised a woodcutter and uncles have gathered to tackle the wood pile. We are worried the wood will begin to rot away, and we would like to clear the area and beautify it. A big thank you to James, Peter Hour, Chris Bruce, Yves Moreau, Alex Kananchuk and Ross Robertson for your hard work. 2 thirds of the pile has been cleared.

Youth who arrived early for the workshop lent a hand spreading woodchips over the muddy areas in between the chapel and the cabins, as well as underneath and around the new play equipment. Big thanks to James Robertson, Jayho De Geer and Carlos Moriarty.

This month we held the Children's Winter Workshop. This was held simultaneously with the Youth workshop. Melanie Moreau was the main director of the workshop, and we had 5 new participants joining for the first time. The lecture contents covered the Divine Principle, telling the story from Adam and Eve to True Parents. The Korean Missionaries gave fun Korean learning lessons in the morning and other activities like sports or craft were enjoyed. Thank you to all staff involved. Vlad Odjou was a first time staff member whose help we greatly appreciate.

The Winter Youth Workshop was held simultaneously with the children's workshop. William Saver stood as the main Director of the workshop, supported strongly by the key staff Sara Josifoska, Elijah Lausburg and Ken Schmittat. The youth received lectures centering on the many layers of the principle. Despite the rainy and cold weather participants were able to enjoy a bush walk and other outdoor activities in between lectures. Over the 4 days brothers and sisters invested their hearts to receive a deeper understanding of their life and the principle. Renalyn Samonim and the kitchen staff cooked amazing food all week. Thank you for all support staff, family and participants who made the event possible.

Woodpile Finished:

8<sup>th</sup> July

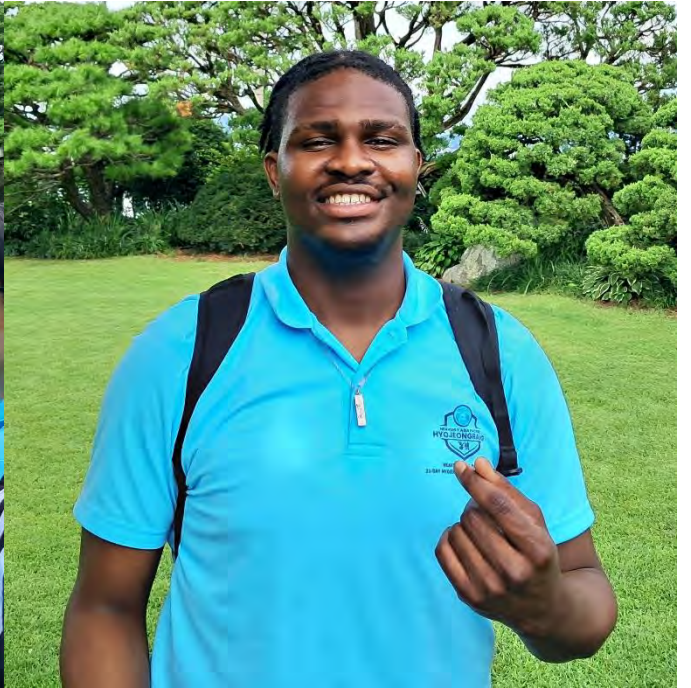

Thank you for the uncles and brothers who cut the wood this weekend. It's so wonderful to see this complete. Little by little our property is growing in beauty.

Asia Pacific held a 21 Hyojeongrang Workshop in Korea. 7 members attended from Oceania, 4 participants from Australia (from Melbourne, I proudly report). Participants received lectures from some of the highest level of leaders, even staff were able to gain great insight.

Participants from all over Asia Pacific attended daily Cheonshimwon vigil prayer as well as cheon yang sessions. They were treated to a cruise on the Gapyeong cruise ship and a visit to the Gapyeong bird park. The highlight of the event was being able to perform our signature performance “pure water” in front of True Mother and present her with a pearl necklace from Melbourne, Australia.

All participants displayed significant growth over these 21 days, with some of them extending their stay up to 40 days.

**Picnic Tables:**

19<sup>th</sup> July

To complement our outdoor areas, especially the new play equipment, we have purchased 2 picnic tables that have arrived today.

**Sunday School:**

21<sup>st</sup> July

Sunday school kids had a great time with Alex Kananchuk taking care of their lessons. Thank you all staff.
