

Melanie Moreau Directed the Children's workshop, and again she did a sensational job. Anne Bellavance came out of retirement to once again support the Children's workshop as staff. Anita Burfield also came on as a first time staff and did a fantastic job. In this workshop Melanie pioneered having professional 2nd gen and elder members to come in a give educational activities. Yeyeong Babb came to teach about native animals and flora, Sarah Boyd held a session with the kids and Chris Bruce taught them how to cast a fishing line and harvest vegetables. Jacinta Darbishire taught them about flowers and made natural tiaras with them.

The Youth workshop was a great success this year. Despite an unusually small number of participants a great connection of heart was developed among the members. Cassie Anania, and Esther Park were first time staffing as MCs and they did a sensational job. Carlos Moriarty was Activity & sports staff, he was also staffing for the first time and was a natural. Vlad Odjou was also an amazing supporting staff. The HTG missionaries were invaluable to the effort, providing so much support and care. The workshop was DP focus, with lectures being directly Divine Principle content. Activities ranged from sports, to hikes and the internal activities.

We are so grateful to all the members who supported. A special Thank you to Renalyn Samonim who took on the role of head chef. Also a huge thank you to Rev Yutaka and Rev John for their love, lectures and support.

We met an awesome lady at the Tibetan Buddhist centre called Chloe. She knew about the FFWPU as we had already given Mother's autobiography to another Tibetan Buddhist elder. They have the book in their bookshelf. She wanted to know 'when are we having an event for Religious Harmony? We are gave a flyer that Yves has and the booklet of How to Gain Spiritual Help. Great contact! We couldn't find any Christian Churches open and it was very hot! -Candace & Debbie
