### **Remembering Robert Mwogeza**

Robert Mwogeza, former IFF Uganda Chairman sadly died four months ago on 19th November. He had been suffering from diabetes for some time, and caught Covid-19 but did not recover.

At the Funeral service, apart from family members, IFF Uganda and Destiny Junior School were represented, and a wreath was laid on behalf of IFF Uganda.

Robert served IFF Uganda diligently since June 2007. He often went into rural areas with the Mobile Medical Team to faithfully help local people improve their standard of living by removing jiggers, disinfecting their homes, and talking about basic hygiene.

He leaves behind a wife, Agnes, and five children. He will always be remembered and missed immensely.

After the burial, the IFF Uganda working board held a meeting and Paul Isabirye was proposed to succeed Robert. IRFF UK as primary funder also approved this move!

Robert Mwogeza will always be remembered for the enormous effort he put into his activities to help the communities of Uganda.

If you would like to find out more about Destiny Junior School, where Robert was heavily involved in, [click here](#).
