Peaceful Families Organization (PEAFASSO) at the Adagom 1 and 3 refugee settlement in Nigeria

"The reason why I want you Unification Church members to go a sacrificial way is to make you people who can contribute to bearing the fruit of love that represents a global standard, and thereby be loved by all humanity as well as God."

By True Parents

Today the 22/06/2021 at the World Peace Home, a Peaceful Families Organization's facility at the Adagom 3 Refugee Settlement for Southern Cameroon Refugees in Nigeria, a delegation of 21 persons were invited for a one day workshop under the theme: God has chosen you to yield peace and development to your people.

This one day workshop was spiced with a visitation to the True Love farms, sharing of the farms rich yield. There was a fantastic manifestation of a typical family experience by all participants. The participant were active in cooking, harvesting of the farm's products, dishing of food, sharing the farm's harvest and active participation during the lectures. We were merely sharing food to yield hope and Peace

among a people who dearly need hope and Peace.

The lecture was a spectacular presentation of the summary of the Exposition of the Divine Principle. The participants were drilled on God's purpose of creation, the fall of Adam and Eve, the history of restoration and its end, and finally the advent of the True Parents. The lecture's essence was that we can only be able to yield peace and development by bearing God's lineage through the Marriage of the Lamb. It also included the aspect of our unique responsibility to end restoration and begin the new dispensation centered on God's original ideal of creation. The participants were able to see for themselves the urgent need for the True Parents Blessing.

This delegation is not the first to visit the World Peace Home. The World Peace Home had received delegations from Adagom 3 and Adagom 1 refugee settlements. Both were respectively code named Abraham's Batch and Isaac's Batch. This Okende delegation has been code named Jacob's Batch. It consisted of 21 members, it marks our third stage horizontal sharing of food. This quite meaningful to us. We concerted to start a different phase of our activities from Okende Settlement like God continued His dispensation with Jacob in Abraham's family.

This delegation had elders from different churches, we had a pastor who was very irresistibly moved by the lecture and our vision and efforts. The entire delegation expressed deep appreciation for our efforts, style and vision. They left very encouraging remarks. They wished having us in their settlement for more education and interactions. We thank God.

In fact, today is an achieved day for us in the fulfilment of our promise to our Heavenly Parent and our True Parents. We prayed to use our sweat and tears to feed our fellow refugees. We knew we were able and we have done it. From this level we are gearing toward a second phase to extend this wonders to the other remaining three sibling settlements, to permit us share our God with the entire Southern Cameroon Refugees. Particularly to me this is very serious. I was responsible for the South West Region of Cameroon before and during this crisis. I was also the head of the FFWPU Cameroon team leader for the National Heavenly Tribal mission for the North West Region where at the same day our 90 days mission was elapsing the wind of change germinated. From here things turned, and finally I find myself a refugee. But this is not all, something striking is inside. I am here to merely continue my unfinished mission. I feel the providential weight of the life's of these refugees on my shoulders. Finally, with this in mind, I am joyful today to have arrived at this level.

Having vertically and horizontally laid this foundation, then our Heavenly Parents and True Parents will have a place to settle among these people. We have every right to move forward. We have to continue the education and blessing of more of these refugees and host Nigerians. We feel happy to have brought the True Love Farms mission accomplished fundamentally. The rest is to expand from the North to the South, from the East to the West, and from Now to Eternity.

We express our exquisite gratitude to our Heavenly Parents, our True Parents, and all of you for your investments of any kind to have this wonderful event.
