December 14, 2024

The Women's Federation for World Peace (WFWP) Canada wrapped up 2024 with a heartfelt and festive virtual gathering on Saturday, December 14th. Held via teleconference from 9:00 to 10:00 AM EST, the event brought together participants for a morning of reflection, gratitude, and meaningful connections.

The gathering embraced a warm holiday spirit, with attendees encouraged to dress festively. The event kicked off with engaging icebreaker activities, fostering an atmosphere of joy and camaraderie. This was followed by a gratitude reflection session, which became the heart of the event. Participants took turns expressing appreciation for a person of their choosing from within the group, resulting in a moving exercise that deepened relationships and strengthened bonds within the community.

Many attendees shared touching reflections, with some moved to tears. This exercise not only allowed members to recognize the impact of their peers but also reinforced the organization's mission of fostering peace through mutual support and appreciation.

Beyond reflecting on the past year's experiences, participants also shared their aspirations and hopes for the upcoming year. The discussions highlighted personal and collective growth, showcasing the resilience and dedication of WFWP Canada's members in their ongoing efforts to empower women and build a culture of peace.

As the gathering came to a close, warm wishes for the holiday season and the new year were exchanged, leaving everyone with a renewed sense of connection and purpose. The event served as a beautiful reminder of the power of gratitude and the importance of fostering relationships within communities.

With another successful year behind them, WFWP Canada looks forward to 2025, continuing its mission to uplift and support women in their journey toward peace and global harmony.
