

## **Introduction to Father's Prayers**

divided into 2 collections: 20 & 40 books.

804 pages of prayers are difficult to read. Nevertheless, It is one of our required readings.

I divided the large volume into PDF parts that can be listened to in more or less 20 or 40 equal parts, on text-to-speech apps.

I listened to each of the 20-book series on my iOS-included app 'Text-to-Speech' at 1½ speed. This took about 40 minutes for each book, i.e., the reading out loud takes about 1 minute a page at 1½ speed playback. Choose the voice & speed in the settings. Do that one time, then afterwards it'll play at that setting.

Regardless of your OS, whether Windows, iOS, Android or Chrome OS, there is a native text-to-speech app. One need not purchase a new one.

In each PDF book, highlight the content and 'copy' it to memory. Then in the text-to-speech app 'paste' it. Then just 'play'.

Playing at 1½ speed doesn't lose feeling.
