

## World Peace Begins with Children Who Attend Heavenly Parent

Hak Ja Han

November 28, 2019

Opening Ceremony of the African Continental Summit, Palais des Congres in Niamey, Niger

Summary

Today, we are longing for peace. Unfortunately, the world is becoming increasingly immersed in war, conflict, and confusion. This means that peace cannot come about through human-centered efforts, ideologies, or regulations. In order to achieve true peace, we must know the essence of our Creator, the Owner of this universe. Our Creator created this universe and all things in it, in His image. As the conclusion of His creation, He created a man and a woman as the first human ancestors. He gave them responsibilities they had to achieve through a period of growth. However, when we look at the world today, humankind has become a fallen people who do not live up to the Creator's expectations and hopes.

Our Creator is omniscient and omnipotent. His beginning and end are the same. He is unchanging and eternal. Hence, the issue is that God gave humankind responsibility. As a result, a man and woman who have completed their responsibility as the ancestors of humanity must emerge from among fallen humankind.

God, inevitably therefore, had to conduct His providence of salvation. From among fallen humankind, He chose a nation that at least loved God, and conducted His providence of salvation of restoration through indemnity until the people could grow from mere individuals to tribes, ethnic groups and finally form a nation. Finally, after 4,000 years, God could finally send His only begotten Son through the people of Israel. Unfortunately, people did not know the essence of God's only begotten Son. Even Mary, who had given birth to God's only begotten Son, did not understand that. As a result, God's only begotten Daughter could not appear next to God's only begotten Son, whom God had sent after 4,000 years of tremendous effort. Though he promised that he would return, Jesus ended up going the path of the cross. This led to the 2,000- year providential history of Christianity.

Christianity began after Jesus' apostles, who were waiting for Jesus who had promised to return, were reborn through the works of the Holy Spirit. After being acknowledged in Rome in 313 AD, Christianity moved beyond the Italian Peninsula, spread out to the European continent, and reached the island nation of Great Britain.

Great Britain was also building an empire on which it was said the sun never set. It spread out to the world holding the Bible. Unfortunately, they also did not know the essence of Jesus. Jesus taught, "Love your neighbor as yourself." Instead, they prioritized their national interests in the mission countries they went to, and in the end came to be a civilization that took away from those countries.

God chose a people from among all of humankind through whom He could send His only begotten Daughter. God conducted His providence through the Korean Peninsula in Asia and His only begotten Daughter was born from within the Christian foundation in 1943. A new providential history began through the birth of God's only begotten Daughter.

In the beginning, the Creator gave human beings a period of growth. God's only begotten Daughter was

born in 1943. Korea was liberated in 1945. With liberation came the division of Korea into North and South, between communism and democracy. The Korean War, however, broke out in 1950 when South Korea had yet to establish its democratic system. Back then, Korea was a country that was barely known around the world. Then, how could 16 member-nations of the United Nations come to the support of South Korea? To bring about the completion of His final providence, God had to give a period of growth to His only begotten Daughter.

The Christian foundation and people back then did not know of Heaven's providence. Even though God's only begotten Daughter had finally been born after 6,000 years, and emerged next to the returning Messiah for whom they had so longed, the Christian foundation remained asleep.

Knowing Heaven's circumstances, I could wait no longer and in 1960 I was elevated to the position of the True Parents.

The Way to Realize True World Peace We are the True Parents. Throughout history, people have lived like orphans who have lost their parents. As a result, not once have we been able to enjoy an era of peace, though we earnestly long for peace. The 6,000-year biblical history has been one of continual war, conflict and great bloodshed. Since God's creation is to last for eternity, God could not do anything until victorious human ancestors emerged. As the True Parents, we had to guide fallen humanity back to the Heavenly Parent even in the absence of a supportive environment. How did we do that? Without being reborn through True Parents' Blessing of rebirth and resurrection, people cannot become the children of our Heavenly Parent and Creator. Next year marks the 60th anniversary of this. The now 60-year history of the Blessing, which began from three couples, has given birth to many blessed families in 190 countries of the world.

To find and bring all people of the world, some 7.6 billion people in total, become Heavenly Parent's children is actually no simple matter. I am approaching my eighties; there is a limit to how much can be done during our life on earth. However, as God's only begotten Daughter, and the mother of this universe, I will go wherever I am needed.

At the final stage, when we must see the completion of the providence, the only way to solve the different conflicts we face today all together, including religious, ideological, and racial conflicts, is through the emergence of Parents in front of all humanity. If the 200 or more countries of our world can inherit the Parents' tradition as sibling nations, then the world will become the Kingdom of Heaven on earth that our Heavenly Parent and humanity have so longed for.

For this to come about, just as our Creator created one man and woman as our ancestors, the men and women of this fallen world must be reborn as couples through the True Parents. This is the way to becoming children of our Heavenly Parent. Only when the dream of One Great Family under Heavenly Parent comes true can true peace also come about. There can be no more conflicts and wars among the children that attend the Heavenly Parent.

I understand that several chiefs are attending this conference. If you go back down your family line as chiefs, you will find out that we all have one parent. Living as fallen people, not attending Heavenly Parent in our lives, has resulted in the formation of national boundaries and many barriers that prevent us from becoming one.

However, the era has changed. It has been seven years since a new history commenced from God's only begotten Daughter, the True Mother... Seven years of Cheon Il Guk.

If all people worldwide become citizens of Cheon Il Guk who attend our Heavenly Parent, all the problems that we worry about will be solved.

This movement is a movement that truly attends the Heavenly Parent. It is a movement that seeks to bring about Heavenly Parent's dream and humanity's hope of One Great Family under God. From such a perspective, the President of Niger is a wise president. I am confident that many great leaders who truly love peace and their people will emerge from the continent of Africa. We may see out there in the world some children trying to maintain a distance from their father, but they are one body with their mother. Therefore, please remember that the way to receive eternal blessings from Heavenly Parent is to have your nations, and also for all of you here today, become one with God's only begotten Daughter, who is the mother of the universe. I sincerely pray for the eternal development of Niger and the rest of Africa. Thank you.
