

Cheon Il Guk Gyeongbae Ceremony in Commemoration of the True Parents' Holy Birth

1.6 by the heavenly calendar in the 10th year of Cheon Il Guk
February 06, 2022

I am pleased to see you. In welcoming this hope-filled and vibrant year of the black tiger, I pray that that all of you will be able to sound trumpets of victory that Heaven will remember.

What if, during the last year of the black tiger in 1962, True Parents' Holy Wedding had been held on the foundation of Christianity welcoming them?

Since Jesus' crucifixion, the Christian cultural realm has been so passionately and earnestly awaiting the Messiah, who had said he would return. With some final words, Jesus said he would come again and that when he did, he would hold the marriage supper of the Lamb. Then, who is it that Christians must wait for? Whom must they meet without fail? Who is it that must be born? [True Parents!]

With the beginning of the year of the black tiger, I wondered how things would be if the truth about the

birth of the only begotten Daughter—who was able to embrace Christianity—had been revealed? God has worked so hard and waited so impatiently for sixty years. However, now the only begotten Daughter, the True Mother, the Mother of Peace, the Mother of the universe, has proclaimed Cheon Il Guk and declared that it is firmly established. On that foundation, at this time when we must reveal the conclusion of the providence to the Korean people and to the world, you must become magnets.

The principle of a magnet that is one with True Parents.... Wherever you work and wherever you go, there will always be righteous people for whom Heaven has labored, and that Heaven has prepared for this one day. Be confident when you explain who you are. Do you understand? Due to your unity with True Parents, people will be drawn to you as if you are magnets. I bless all of you to become those who step forward courageously and confidently.
