

Let's Meet Father! Special Meeting of Heavenly Korea Core Members and Pilgrimage to Bonhyangwon and Cheon Jeong Gung

6.23 by the Heavenly Calendar in the 10th year of Cheon Il Guk (July 21, 2022), in front of the main building at Cheon Jeong Gung

True Mother's Message

Beloved blessed families, sons and daughters from subregions 3, 4, and 5! I am happy to meet you all! [Applause and cheers] You can feel how Heavenly Parent is with us just through the weather today, right?

What was the dream of the Creator, our Heavenly Parent? God's dream was to live in heaven on earth with the True Parents and His children. Have the True Parents created an environment that would allow that dream to be realized, or not? [They have.]

I've made changes to the flowerbeds at Cheon Jeong Gung. Previously, there were big trees in the area there on top. But we have removed the trees and I planted flowers that bloom all year round. So last year the butterflies and bees loved it. But because of this year's unusual weather, many bees seem not to have survived the cold. As a result, it was not easy to see bees this spring and summer. You can hear the sound of crows now instead. [laughter]

A pretty yellow wagtail made its nest in one of the flower beds here in Cheon Jeong Gung. She looked after her young and then off they flew. [Applause] However, it wasn't just that once. A second wagtail nested here and laid eggs. A third wagtail seems to have built its nest in what is probably one of the safest places in Cheon Jeong Gung. There at the basement entrance. There is an unused car and some other items. Somehow, the wagtail found it and made its nest there. Now she's looking after her nestlings. [Wow!]

Some crows have also made nests and raised their young around Cheon Jeong Gung instead of in the trees. So there are many crow families here. The reason I mention this is that even nature knows True Parents. They also recognize Cheon Jeong Gung. [Applause]

Would it be okay if you attend Heavenly Parent less well than nature does at this time when you must attend Heavenly Parent and achieve the Kingdom of Heaven on earth in your lives? [It would not be okay.] It would not be good, right?

Therefore, what should be done about this people that is ignorant of the True Parents and the Heavenly Parent? We must teach them. What should be done after teaching them? They should be guided to establish true families. Is that right? [Yes.]

This is the path to national restoration, a heavenly unified Korea, and a heavenly unified world. All of you here in the providential homeland of Korea need to fulfill your responsibilities before next year's dedication and opening of the Cheon Won Gung Cheon Il Sanctum. Do you understand what I am asking? [Yes.] You will do this, won't you? [Yes.] All right. Thank you.

[After singing the song, "Saranghae (Love You)":]

Let's sing "Our Cherished Hopes Are for Unity."

[After the singing:] Aju!
