Full text of True Mother's speech

Heavenly Parent, True Parents have experienced unimaginable pain and suffering. You who have gathered here have been Blessed Families for over twenty to forty years. When I think of this, I think of what a small existence we are in front of the love of Heavenly Parent and True Parents. We lack so much.

Today, you and I must do our best at the front lines as the Peace Army and Peace Police of Jochongneyon (the pro-North Korean residents' league in Japan) so that we can make this peninsula, Korea, stand as God's homeland, a unified homeland,

Through your 100%, 120% and over 200% sincerity, loyalty and pride in Vision 2020, I hope this nation will stand tall in front of the world as God's homeland. I hope you will do your best to fulfill the hope of Heavenly parents and humankind to fulfill God's homeland.

I hope that you will all participate in this proud frontline. You will create a bigger environment and I hope that you will give everything that you have so that seven billion people of this world will attend True

Parents and Korea will attend Heavenly Parents in glory.

Meanwhile, Japanese leaders affiliated with the Peace Unification Federation go forward with a project called 'Pray for Peaceful Unification! 2013 Cycling Cross-country Trip'

True Mother showed much interest and signed a unification flag, which will be used for the cycling trip.
