Congratulatory Event at the First Anniversary of Foundation Day

We must not miss the heavenly "time"

February 12, 2014

Seeing the event and hearing the reports on the First Anniversary of Foundation Day, you probably agree that not only the members but the whole world are now paying attention.

I heard from the Continental Director of Asia that our Philippine members have blessed numerous people there. This is a miracle that all humankind in the present age should know about. Hearing this report, all Blessed Families and all members of the Unification Church and the FFWPU must reflect on their past and think how much they were able to accomplish in front of True Parents as filial children, loyal subjects, and divine sons and daughters. It is true that we were able to elevate the position of our church through these events. However, most of the 7 billion people in the world are still unaware of True Parents and their lifelong investments to spread the providence of the Blessing to the world. What do you think of this reality?

There is always a "time" in the history of heavenly providence. Do not miss this "time." After working for many years together with True Parents, you are in a position to bear fruit and receive tremendous blessing at this time. It will be a shame if you end up not fulfilling your responsibility. I am saying that you should not become "shameful ones." Do you understand? "Doing your best" is not good enough.

...

When you heard True Father's voice (prayer) at the Blessing ceremony, what did you think? Did you like it? Did tears well up in your eyes? Did you feel sorry because we could not bring good results while True Father was still on earth?

You must realize that you have to bring results while I am still on earth. That will make up for the past failures. Since you have grown to maturity, you should already know how to take action and bear fruit in your practice.

...

We must start a movement to let True Parents' birthday be known to the nation and the world. For the first Foundation Day, we had various events from the 1st through the 13th. This year, after thinking of witnessing and financial situations, we decided to let each continent and country celebrate till the 7th.

I will be happy to see True Parents' birthday celebrated in continents and countries as an international day of celebration from 2015 on. You can make it happen, can't you?

...

February 12, 2014

If you realize and appreciate how much True Father loved humankind and invested all his heart and soul till his last moment, our movement of true love and living for the sake of others will surely spread to the whole world.

When we think about it, you should not just sit in a chair and think in your head. I must tell you that this is the time to move forward and take action!

I think tears come to your eyes when you think about True Father. I trust you, and I hope you will do your very best!

I would like to see you succeed with the spirit world's help and mobilization. May God's blessing be upon you!
