

Rise Up and Tell the World About True Parents

DR. HAK JA HAN MOON

CHEONGSHIM PEACE WORLD CENTER

SUNDAY, MAY 11, 2014

Unificationists from around the world were welcomed to the Global Sunday Service at the Cheong Shim Peace World Center in Korea. The following is an edited transcript from the English verbal translation of True Mother's worldwide message. Edits were made only to the grammar, not the message itself.

Dr. Hak Ja Han Moon

Today we are in the second spring by the Heavenly
Calendar of Cheon Il Guk.

Spring is the season of hope. It is a time when we can raise our dreams to a higher place.

However, in this beautiful season, the news that we hear from around the nation and the world is filled with sadness and conflict and is truly tragic. It is as if this world is on a ship without a captain or a compass. We are in unstable circumstances, like crashing after meeting a violent storm or sinking after hitting a rock. As we look at these problems, we, all Unificationist families around the world and all warriors of Unificationism, must rise! We cannot just sit idly and wait, doing nothing. We cannot keep the blessing we've received to ourselves. When we think about the 7 billion people who are suffering as orphans, we have to let them know that True Parents have been working with the Heavenly Parent.

In light of that, I have relocated the Family Federation for World Peace and Unification (FFWPU) international headquarters to the Cheong Jeong Gung as of yesterday. Through this, I have opened the providence here in this holy ground where our Heavenly Parent can now rule

and govern directly. Is that not something for which we can be grateful?

These blessings cannot remain only for ourselves. When we fulfill our mission of tribal messiahs, as true children who resemble True Parents, we will be in the position of ancestors. In order to fulfill this responsibility, we have to rise. We cannot wait any longer. Even at this very moment, there are countless people who are dying without knowing that True Parents are here and alive.

Even though they live in the same age as True Parents, they do not know this providential history. This is the first time that this has come about, after 6,000 years of suffering, and still they are not in the position to receive this grace and blessing and just pass away tragically.

These are our brothers and sisters, and we need to think about them, and when we do, we need to roll back our sleeves, and rise up to the challenge.

We need to proclaim True Parents to the world without reservation and let everyone know that without True Parents, this world cannot survive. I believe that this is the only way in which we can give back for receiving the blessings that we have received from Heaven.

Therefore, I have divided the continents into language zones, and through this I want to give all humanity a chance and opportunity to participate in the heavenly providence quickly.

I have established special agents who will help fulfill the task of spreading the blessings in these continents. Eight special emissaries will testify of True Parents to all humankind with you, and stand in the front line to solve all problems. Named as the special envoy of True Parents for North and South America is Dr. Chang Shik Yang. So, all who are here today, please join your hearts as one. I would be grateful if you would set your hearts to this cause so that you are also participating in the journey with the special emissaries as they go. This special task will truly open the season of spring for the whole world.

I would like to conclude my speech by asking all members in the world to rise up until we reap the fruit. Thank you very much.

Rev. Young Hwi Kim spoke on the occasion of his tour of North American cities, in 2013, on the topic:

*1945–2012: The Life of Rev. Dr. Moon
and the Fulfillment of True Parents*

In an excerpted portion, Rev. Young Hwi Kim offers his response to “How great are our True Parents?”

Rev. Kim references *Proclamation—the Memorial Day of the Greatest Victory of Cheon Il Guk (God’s Heavenly Kingdom)* by Rev. Dr. Sun Myung Moon.

That was November 17–18, 2011, between two days. This is by the heavenly calendar; therefore this is almost the end of 2011, the last part of December. Father worked so hard to bring this day. Because of this he came to Las Vegas and then New York and back to Korea to do it again. It is unhealthy for old men to fly long distances. With the time lag, your body loses control, but Father did it anyway. He knew that, and I think he also already knew he didn’t have much time left of his life. Therefore he was so hasty and busy and worked so hard.

“The record of the eternal victory is completed. It is finalized in perfection and completion. Aju.” This is what Father said. He signed here, dated, and added a very important final note, “The oneness of the True Parents and True God is complete. God is perfected, concluded and completed. Aju.”

He wrote here, "God is perfected." By whom is God perfected? By True Parents. Father said that God, too, is growing. If God has no physical or spiritual body, then what grows? God's heart grows because of all the things God faces. God's heart becomes bigger and bigger. God is now perfected; what does this mean?

God's wish was to have substantial form, and now the wish is fulfilled. Father said God was perfected, by True Parents. Was there anybody who made God perfect before in history? No, never. Never before, never after. Father is the only one who could do this.

Here you understand the importance of the unity of Father and Mother. If Father and Mother are not united, how can they ride with God? Can they ride with God? No. Now with Father in the spirit world, where will he come? Where will he come down to when he comes to Earth? To Mother. You have to understand that. Without Mother, Father cannot become True Parents. Who is most important to Father? Mother is the most important being. The unity between Father and Mother is so important. Therefore, they have equal value. If there is no Mother, there's no Father. If there is no Father, there's no Mother. They are equal. Some people say that Mother is lower than Father. No. If you admit that, you are saying that women must be much lower than men, but at the same time you insist on equality between men and women. In God there is male and female; they are equal. Without one, the other cannot sustain.

Therefore, when I explain the importance of Mother, I say that in God there is a Mother God and Father God. If you understand all of this, the only true explanation is that as the oneness between True Parents and God is completed, Father must come to Mother, no exception.

2012, the next year, was the final meeting: "Assembly to Inherit and Accomplish the Opening of the Age of the Victory, Liberation and Completion of the True Parents of Heaven, Earth and Humankind." In Japan they had the "Cosmic Assembly to Declare the Age of the Victory, Liberation and Completion of the True Parents of Heaven, Earth and Humankind." In Japan and Korea, we did this, including six locations in Japan, March 6, 2012.

How great are our True Parents? You can understand that now. In history there was no one who did this much work, even if you compare the work of Jesus to that of True Parents. Jesus could not bring a single person to God's blood lineage. Jesus could not do anything like that. He elevated people somewhat and many went to paradise with Jesus, but they were still of Satan's blood lineage. God could not control them. They could not enter God's dominion. We Blessed Families are of God's blood lineage. Therefore, even if we do something wrong, we don't go to Satan's side. We remain in God's dominion. There is a difference. Satan cannot take us to his side, because the blood lineage is completely different. Father made this possible for us.

We have many difficulties here around us. Do they matter so much, do you think? Because Father finished his mission, there is nothing to worry about. Many sad things happen, and of course we regret them and hope for them not to happen. But even though they happen, the providence still goes forward. Time passes. All the people on Earth and the spirits in the spirit world will undoubtedly come back to God’s side. This year, I had an interview with *Segye Ilbo*, and said that we in this century—all men and women on Earth—we will see the great day of change come. Everyone will witness with their eyes the great change of God and the providence coming on Earth and in the spirit world.

So, is our future bright or what? Bright, right? I hope that we can all do our part and share this glory and honor with our True Parents.
