The 56th Anniversary of True Parents' Holy Wedding

Cheon Jeong Gung (HC 3.16.04)

Thank you.

Members from around the world are commemorating this occasion with us today.

Today, we are living in anxiety, unable to spend even a single day in happiness, due to all the difficult and tragic problems striking the world and the unimaginable natural disasters triggered by global warming. Humanity has striven to find ways to establish one world under God, but their dream has been of no avail. That is because they do not know the providential history our Creator, God, originally conducted. I believe that you were able to learn a lot about True Parents through the preceding long program.

That is so. Heavenly Parent and humanity's dream is the True Parents. Only through True Parents can all problems be resolved. Hence, you, who have met True Parents first, must show it to others. You must teach it to others. You must be able to boldly tell the whole world that True Parents have come and that they are the hope of humanity. Our Unification Movement are to raise revolutions of the heart, culture and arts around the world.

Many famous artists were born during the 2,000-year Christian history, but they had no center. As of now, Heavenly Parent and True Parents will always be with all Unificationists in the Cheon Il Guk era as we advance forward. We will certainly establish the substantial Kingdom of Heaven on earth, which humanity long hoped for, by mobilizing our devotion and everything we have. With the hope that you will all join this endeavor, I would like to propose the toast of victory. Let us all shout "Victory" (Seung-ri) three times with the determination that we can victoriously realize our dream, Heavenly Parent's dream and humanity's dream.

Victory to Heavenly Parent's dream and our dream!!!

Victory! Victory! Victory! (Seung-ri! Seung-ri! Seung-ri!)
