They say that a mother is more sensitive and expressive than a father. That is correct.

A mother's responsibility is heavy. However, my determination to achieve Heavenly Parent's wish while I am still alive is growing. Every day I am constantly creating what I think into reality.

The manifestation of the second coming of the Lord, the True Parents, should have been achieved on a national foundation. Yet nothing has been heard from Christianity, which had been prepared for two thousand years. They are completely unaware. Hence, there was no way for them to cooperate with us.

You should be grateful that True Parents have laid the foundation we have today from an environment where they had to start from the very bottom.

Luckily, True Parents, True Mother, is on earth. You should be grateful for this. You should begin each day saying, "Thank you. thank you." By doing so, there will be progress.

Truth. By the way, I prayed while the holy items were passed out yesterday. There cannot be one spot or any trace of the satanic world. You need to understand this. You must fulfill your responsibilities on your own. No one can do it for you. For those in the second generation and third generation, it is the same.

There is a world of difference between a member saying (upon entering the spirit world), "I have fulfilled my responsibility," while True Mother is on earth and saying so when True Mother is already in the spirit world.
