Regarding American elder members – who are as good as Korea's long-time members and who have been active since 1974 when the [American] providence officially began and was being carried out in fifty states – I felt, during my time in the United States, that their hearts are deeper than Korean elder members. They are certain of the difference between right and wrong. Korean people are aware of what is right, but they consider whether or not they will do it. They weigh up the situation.

President [Ki-hoon] Kim has often told me that our American long-time members are every bit as good as Korean members and have deeper hearts. Yet, this time I personally felt it. The world of heart is one world. However, each person has to strive to be deeper and broader. In light of this, I am asking the Korean members to stir themselves to action. Do you understand? [Yes.]

On our path together we now need to unite, and reveal the Heavenly Parent and the True Parents of Heaven, Earth, and Humankind to all the people of the world. Do not hesitate. Think about how much you will regret it if you cannot achieve this while I am alive on earth. The MC said this already, but one should be filial while one's parents are alive. No matter how much you try to be filial after your parents pass away, who will acknowledge it?

I also said this in America, but I will stabilize all our systems while I am on earth. Those who are in that cultural sphere are one. They will act in a transparent manner; they will become bright lights. What will happen when it is like that? What happens when good groups grow? The world can become one. Our Heavenly Parent's dream, our dream, can be accomplished.

For that day, for that to happen, I will start a revolution toward a culture of heart that can drive the world to more actively unite through in the areas of the arts. We are already realizing this bit by bit. As David Eaton said, because the start and finish are one, our dream and Heavenly Parent's dream will be fulfilled without fail.

I will show you what heaven on earth, which humanity longs for, looks like. You will end up believing it even when people say not to. We can become the best nation of culture, which no one on earth has yet – the beautiful, brilliant Cheon Il Guk. Won't all nations in the world then look up to us? Won't they want to follow us? I will make it happen. Therefore, please do your best and cooperate in each of your own responsibilities. Okay.
