Fourth Anniversary of Foundation Day Address

This is the new hope for our future. You can feel the energy, like nature eagerly awaiting the start of new life in the Spring. Because of True Parents we could pass through the dark human history and now we are welcoming the miracle of spring. Right now we are approaching the 4th anniversary of Foundation Day (the firm establishment of God's nation). What should we do now? The dream of Heavenly Parent can be fulfilled with the advent of True Parents.

That is impossible if the 7.4 billion people of humanity don't know about True Parents. Everyone here, our fellow Blessed Families, we must testify to let the people of the world know True Parents are here on earth and help the world realize how the providence is progressing all over the world.

To do this, you should not just follow. Take the lead and help create the expansion of True Parents' foundation at the front line with total investment.

Therefore, UPF, WFWPI and SFWP (Students' Federation for World Peace – a new organization in development) should be united together. We just established IAPP to educate and support each country. Invest all of your effort and be on the front line to realize Heavenly Parent's dream.

We yearn for the peaceful reunification of Korea, the homeland of God. Shouldn't we unite as one country? I will provide a special mission to fulfill this in a peaceful way.

Only True Parents can solve the world's problems. Testify boldly and proudly about True Parents.

Will you do that?

Thank you.
