PEACE

by J EDWARD STYLES
Special Correspondent

Takes The Garden

Senior Pastor T. L. Barrett, pastor of Life Center Church of God in Christ on the south side of Chicago and the District Superintendent of The Eddie Burns Memorial District, has a story of redemptive marital bliss. The stalwart preacher and accomplished musician rose from a COGIC family with strong roots going back to the early days of America's fifth largest denomination. He serves in a district named after his grandfather,

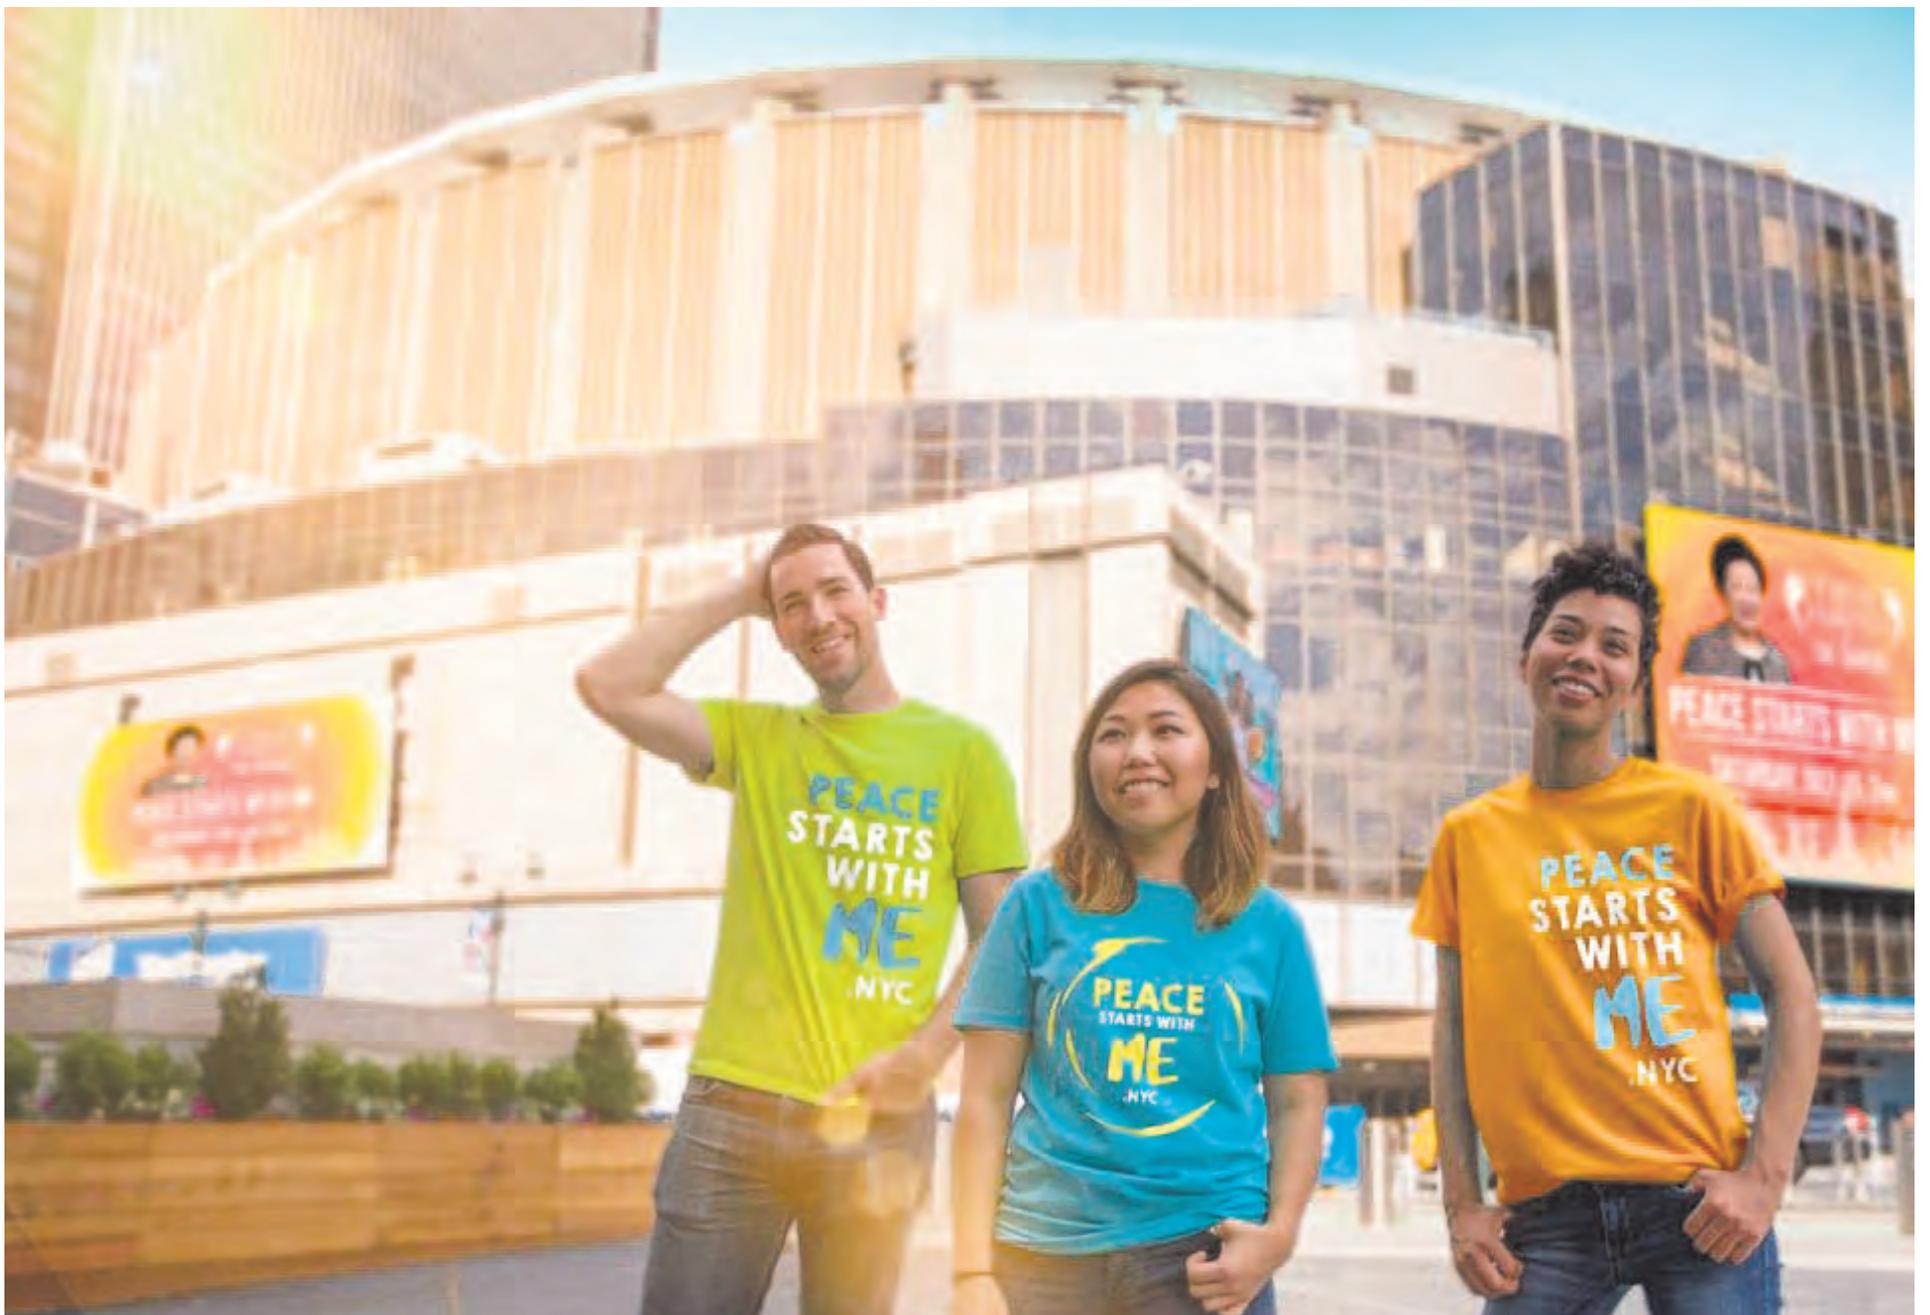

who was also a pastor and the church's district superintendent.

But beyond his church work and ministry, Barrett shares pride-laden testimonies about the revival and restoration of his marriage after ten years of separation. This reformation, Barrett attested, resulted from his encounter with Rev. Sun Myung Moon and the Unification Church going back more than 20 years ago. Pastor T. L. Bar-

rett's story is one of many that validates the core values and mission of the organization and the work of the late Rev. Moon and his wife, Dr. Hak Ja Han Moon.

"Our church and the Church of God in Christ is about family, love, peace, togetherness, and marital fidelity ... and when I was introduced to Father and Mother Moon, I was impressed with the True Family value message. I saw the paral-

continued next page

lels and the opportunities for our church to grow and perpetuate the right values of tolerance, peace, and family values,” Barrett explained.

Barrett sought relief in his own personal situation. He and his wife were separated after twenty-five years of marriage and seven children. Guided by prayer, encouragement, and a prophetic pronouncement from Rev. Moon, and driven by his own conviction to achieve this highest level of fidelity in marriage, he and his wife reunited. Now the Barrett’s, along with their children and 35 grands and great-grands, are living a renewed life as one family under God.

Pastor T. L. Barrett is in an elite group of transformed clerics, but also one of tens of thousands of men and women of all races, religions, and nationalities across the globe who have been positively impacted by the work and ministry of the Moons and the Family Federation for World Peace and Unification.

Since the founding of the organization, The Holy Spirit Association for the Unification of Christianity, in 1954, the group has had at its core beliefs the unification of Christians, races, and nations. Marriages have always been at the center of this belief system, consistent with the Genesis story of God bringing Adam and Eve together to pro-create in solidarity with each other.

Archbishop George Augustus Stallings, Jr. touts his transformation and the positive impact that Father and Mother Moon have had in his life. He calls them True Parents, and points to the strength and power of their message of True Love, True Life, and True Lineage.

ARCHBISHOP GEORGE AUGUSTUS STALLINGS, JR

Once a charismatic Catholic priest, Stallings embraced the Family Federation for World Peace and got married several years ago. That marriage has broadened his horizon and expanded his territory. Now he celebrates the power and beauty of lineage as he validates his two teenage sons.

“I am in a new experience, and I feel overwhelmed just knowing that my wife and I have produced two strong, articulate, handsome, and brilliant young men who will contribute greatly to society. They will help to create a better world, and it would have been unconscionable for me to have the power of lineage and not embrace it because of some religious dogma,” Stallings explained.

Stallings made national headlines back in 1990 when he appeared on national television on The Phil Donahue Show and

In preparation for the Madison Square Garden event, members of the American Clergy Leadership Conference gather in Central Park for prayer.

announced his departure from the Roman Catholic Church and the formation of Imani Temple. Stallings saw this as a viable Catholic alternative that gave Black Catholics the freedom to worship while embracing their Afrocentric culture and a more charismatic style of worship and preaching. His impact and influence expanded well beyond the confines of Roman Catholicism, and this iconic African American clergyman now leads an august group of multiracial, multiethnic, and interdenominational clergy leaders from all across the country.

This American Clergy Leadership Conference, chaired by Stallings, is co-sponsoring a huge gathering in New York’s Madison Square Garden on Saturday, July 15, 2017. Thousands are being mobilized from across the tri-state area under the theme “Peace Begins with Me ...”.

Family Federation for World Peace co-founder Rev. Dr. Hak Ja Han Moon is the keynote speaker, and organizers are projecting an inspiring event featuring great music, creative arts expressions, and a message of hope and peace.

“This is a rather unique and rare heterogeneous gathering. It is rather important because it represents the mixture of

humanity, true religious ecumenicity, and a departure from the conventional homogeneous gathering that most church groups represent,” Barrett shared. “This is truly amazing! We are gathering at Madison Square Garden to hear a message of peace from True Mother Dr. Hak Ja Han Moon, and to celebrate the God we worship in several different forms,” he contends.

Organizers believe that Mrs. Moon’s message of peace to America is coming

REV. DR. HAK JA HAN MOON

at a critical time, and sees this gathering as a historic event that will help to shape a new era of peace and togetherness.

“This is a ministry of a lifetime ... an afternoon of solidarity ... a splendid demonstration fo the power of our unity,

continued from previous page

and a momentous time out for us to come together with others in The Garden and worship God,” expressed Rev. Dr. Michael Jenkins. Chairman Emeritus for the American Clergy Leadership Conference and President of the Manhattan Center and the Wyndham New Yorker Hotel, Jenkins is one of the lead organizers of this huge summer gathering, and is confident of the impact of this event.

“God is about people, and all of us humans were created to live for the sake of others. We were created to worship, and to worship one God together. July 15 will go down as a day when the saints of God came together to worship and to focus on our collective love and the power of peace,” Jenkins explained.

And this collective power will be on full display with the combining of various choirs across the tristate to form a 2,000-voice mass choir that will rock the Garden. Organized by multi-Emmy Award winning producer A. Curtis Farrow, voices will blend and glorious sounds will be released within The Garden. Grammy Award winners Bishop Hezekiah Walker and Yolanda Adams will be among the lead musical guests, and God will be glorified!

Archbishop Sulanch Lewis, the national co-chair for ACLC and pastor of Little Rock Zion International Deliverance Ministries in Crown Heights, Brooklyn, has been mobilizing pastors and church leaders to join in this united movement. Some 28 years ago, she met Father Moon and grew interested in the message of love and the prospects of universal peace. “What he represented grabbed my attention, and I wanted to connect with his message of love,” Lewis contended.

As organizers finalize plans to take center court at Madison Square Garden, hundreds of clergy leaders and churches across the city have embraced the plan, contributing their choirs and dance troupes as they encourage their congregations to attend. Buses are being provided for various churches and from various locations, and it is predicted that more than 20,000 Christians and other faiths will descend upon Seventh Avenue and West 33rd Street for this time of worship, music, and a message centering on peace.

“This will be a slam dunk for hope and peace,” shared Bishop Cecil Riley, pastor of Freedom Hall Church of God. “This universal message is very much needed given the global crises and the masquerade in Washington.”

“This is about us bringing people to a common understanding of the love of God, and what we will see on July 15 is a celebration manifested through the coming together of God’s people – regardless of race, gender, color, religion, or nationality. This is a moment when we will embrace the internal power over the external person,” Stallings conveyed.

If there were cellphones at the Red Sea . . .

Why 100's of Clergy and Faith Leaders Support This Event

PASTOR MARK ABERNATHY

Connect Point Christian Center, Snellville, GA

I am wholeheartedly supporting this event because it is providing me and the nation with the opportunity to connect with people like me who are willing to work together for the cause of healing the nation and the world.

PASTOR T L BARRETT

Life Center Church of God in Christ, Chicago, IL

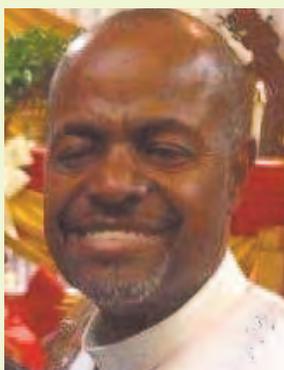

Jesus Christ is the Prince of Peace, and as one of his representatives, I am committed to doing whatever Jesus would do to promote the cause of peace, love, and unity among all people. Therefore I will be there in the spirit of Jesus to add my vibrational energy to and with the energy of Mother Hak Ja Han Moon and the 20,000 other peacemakers, so that real peace on earth can become a reality.

PROPHETESS SANDRA BOND

Peekskill Christian Center, Peekskill, NY

I thank God that I became a member of the ACLC in 2015. Last September during the 40th anniversary of Rev. Moon's speech at the mall in Washington DC, I was standing on the very lawn where he spoke, and I felt the presence of God's peace there, and it changed my life forever. Beyond a shadow of a doubt, this great event at Madison Square Garden with Dr. Hak Ja Han Moon is going to be a life-changing experience. It's amazing how one woman destroyed the peace in the garden, but now God has another to restore the peace in The Garden. I am so excited, I can't wait.

REV. DR. KENNARD DAVIS

Truth Center for Higher Consciousness, Brooklyn

This is an opportunity for people to come together to understand the true meaning of hope and peace as it relates to various denominations. This will be of great impact on our spirituality. We can only realize true peace when we come to the consciousness of the fact that we are spiritual beings. Mother Moon will bring a transformative message of peace and hope that will impact all nations.

BISHOP JESSE EDWARDS

Chair, ACLC-NYC

This event will bring an explosion like a Pentecost with Madison Square Garden as the epicenter. It will bring a spiritual tsunami waving across the East Coast, tearing down walls of separation that have been built for many years – pouring out the prophesied last days revival like we have never known. I can't wait!

PASTOR TANYA EDWARDS

Family Church of New York City

Those who are truly ready will be coming to this great event from the East, West, North, and South ! I hear the sound of Pentecost, and it's coming to Madison Square Garden. You do not want to miss your opportunity to be part of this life-changing event.

DR. MICHAEL JENKINS

*Chairman Emeritus, ACLC
Chair, MCNY Group, Inc.*

We are rejoicing as we see the Body of Christ coming together in one accord at Madison Square Garden. Just as Joshua marched around the city of Jericho and the Walls came tumbling down, Mother Moon is calling for the people of faith to lead the world out of darkness with Jesus' love centering on strong families in God's Image.

MIN. REIKO JENKINS

National Co-Chair, ACLC Women in Ministry

We are excited by the move of the Holy Spirit at this time and believe that Jesus is now ushering in a new era of peace. We are excited that the great men and women Christian leaders of America are leading this effort to bring unity to our families and churches. They are testifying that the Message of Hope and Peace that Mother Moon is bringing will bring a miracle!! May God Bless His anointed clergy.

DR. VONI JOHYN

Isaiah's Temple of Mt. Hope SBC, Brooklyn

"But they that wait upon the Lord shall renew their strength"... with the Peace of God. This has been a long time coming, since the transition of Father Moon nearly five years ago. The opportunity now presents itself for Mother Moon to extend her love and blessing to all souls.

DR. PATRA KIDWELL

God's Ministry International Church, Landover Hills, MD

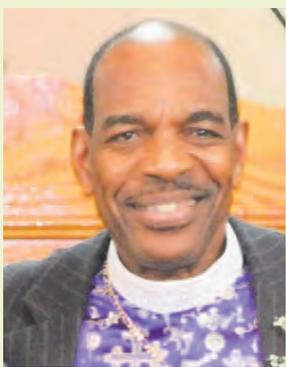

I'm so glad that Mother Moon is coming to speak at Madison Square Garden. She will give a message of hope and peace, not just to Christians, but to the whole world. She will speak of the grace of God, because grace is what we need in our world today with Christ being the center of our world. True Mother will come with that outpouring. It is imperative that lives will be liberated and changed. Come with an open heart to receive this message. This season is the obvious season. Don't miss it.

DR. KI HOON KIM

Co-chair, ACLC

We are living at the most important time in history in which God and Jesus are moving to call us to become one centering on God's Love. This is the calling of Father and Mother Moon, to stand as True Parents under God's anointing and in His image. Mother Moon is bringing the mother's heart to New York and to the world declaring with "the Message of Hope and Peace" that human effort alone will not solve the terrible problems of the world today – only with God's power and the True Love of Jesus coming through True Parents can we end the division and suffering."

BISHOP CECIL G. RILEY

Freedom Hall Church of God, Brooklyn

You can count me in! Here again is a great opportunity for a huge collective victory. We are gathering at the Garden amidst a huge crowd of witnesses. We are laying aside the weight and the things that doth so easily beset us. To this end, we must lay aside race, religion, sex, status, and our individual beliefs and denominations so we can all take center court at Madison Square Garden and deliver a slam dunk for peace. Mother Moon's message of peace and hope is particularly timely during this season of global strife, the craziness in Washington, and the imbalance of justice in New York. Let's come together and celebrate Jesus, lift up hope, and take a stand for peace!

Madison Square Garden and deliver a slam dunk for peace. Mother Moon's message of peace and hope is particularly timely during this season of global strife, the craziness in Washington, and the imbalance of justice in New York. Let's come together and celebrate Jesus, lift up hope, and take a stand for peace!

ARCHBISHOP ANGELO ROSARIO

Church of God's Children

It is a great pleasure to welcome Mother Moon as she is returning once again to America after her world tour, seeking to bring unity and peace to all denominations, religions, and races. There is only one race the human race. On July 15, we pray that all of us, people of faith, will join together as one family guided by the Holy Spirit to bring peace to our communities and our world.

There is only one race the human race. On July 15, we pray that all of us, people of faith, will join together as one family guided by the Holy Spirit to bring peace to our communities and our world.

REV. DR. LUONNE ABRAM ROUSE

1st Church Baldwin, UMC

"Peace begins with me" is an existential truth, and I've made an experiential, informed choice to support. The cost of discipleship is priceless; by faith in Jesus, it's paid in full. Let peace, here and now, begin with me.

BISHOP MICHAEL SYKES

United Missionary Baptist Church, East Orange, NJ

Jesus prayed in John 17 that God would make all people one. I believe Mother Moon's message of peace, hope, and love will help make all people one.

REV. DR. ROBERT WATERMAN

Antioch Baptist Church, Brooklyn

I am moved by the body of Christ representing itself through the 2000-voice choir, being many members but one body. What a splendid opportunity for us to move with one sound that testifies of the mercies of God though the love that we share with one another in worship. Music is a powerful instrument that the enemy has snatched, and as men and women of all races, religions, and creeds come together to sing, worship, and boldly proclaim our solidarity with each other through fellowship and this, our solidarity with peace, I join the call for us to unite in worship.

Music is a powerful instrument that the enemy has snatched, and as men and women of all races, religions, and creeds come together to sing, worship, and boldly proclaim our solidarity with each other through fellowship and this, our solidarity with peace, I join the call for us to unite in worship.

REV. JOEL RAY YOUNGBLOOD

Mt. Pisgah Baptist Church, Bklyn

I support this event because I believe that this is what Jesus would want us to do, people of all faiths and all races coming together for the cause of peace and unity.
