Now, Mrs. Sun Jin Moon, International President... She is attending Mother Moon more closely than anyone else...

### Sun Jin Moon:

Beloved leaders from around Japan representing all sectors, brothers and sisters of the Family Federation from all across the land,

We are gathered here today to stand for peace on common ground and vision for universal values... honored to be here for such an imp purpose... We are all aware of the troubles in the world and no where more intensely than Asia... threats... While some enjoy comfort many, many others suffer... We are here to renew our commitment to peace for all people to live in mutual respect, harmony, cooperation and mutual prosperity... one family under God where all cultures, nationalities and religions live together...

My Parents have dedicated Their lives to this goal, working ceaselessly for worldwide peace movement centered on God with a special love for Japan and their providential role of this time in history, as the mother nation that looks for the sake of all God's children... They met the people of all nations so that they would understand and receive God's Blessings for loving families so God's True Love can spread and heal and resolve conflicts to return to God's Bosom...

Our keynote speaker is Dr. Hak Ja Han Moon, an unwavering champion for peace with my Father. I recommend Her as the role model of all time... For 52 years, She stood by with my Father giving birth to 14 strong-willed and passionate children... With wisdom, grace and clarity she has led 7.4 billion people of the world, founding charities, schools, scholarship programs and to raise our youth... From the time of Her youth, She has been guided and protected by Heaven.

When I asked Her why, She says it is for God and True Father's unchanging hope and offering every moment of Her life... She is my hero and I know my Father would be so proud of Her and always is by Her side... When my Mother delivers this message today, I hope you will give Her your full attention... for how we can work together...we can assure lasting peace and prosperity for the whole world and creation...

Our beloved True Mother, Dr. Hak Ja Han Moon,

Please rise up and welcome Dr. Hak Ja Han Moon on the stage with big applause

*(Mother looks very moved)*

Now True Parents of humankind, Dr. Hak Ja Han Moon

**Hak Ja Han:**

Thank you very much.

Osaka, such a proud place, many people from all walks, Ambassadors for Peace, Family Federation members, Blessed Family members, Ladies and Gentlemen,

Today we are receiving a new (heavenly) era of providence when we are able to become the masters of the providence. That responsibility is for this country to attend God, the new Japan, new Osaka This must be the first step to realize that kind of Osaka and Japan. Is that so?

As we look around the world, there is no hope for the future. Depending on regions, according to their religions, they explained goodness; but, they did not realize the destination of where and how the fruits have to be grown and completed. That is why I am here to explain about God, the center, the ultimate core of the whole existence. God the Creator is the Creator of the whole universe and of the man and woman as the ancestors of humankind and gave the responsibility to them.

What is that responsibility? They were supposed to be united in absolute faith, absolute love and absolute obedience, growing towards God's ideal hope so that they will assume the position as True Parents. That is their destination; but, on their way they considered their own desire and position. They wished to become like God; however, when they were not at the appropriate time, they had a desire. That was a trick and cause of the Fall.

However, God is the same in the beginning and the end. The Alpha and Omega must be the same. God cannot change His principle of creation. Therefore, God had to find out the fallen people from this world and make them restored back to the original position. What a sorrowful path it was. The Heavenly Father chose Israelites as the chosen people for putting an individual, a family, a nation in a state for Heaven. What a dreadfully difficult course it was.

As long as 4,000 years had to be required to bring about one particular person that God could declare is 'My Son.' However, people who were supposed to create the environment, like Mary, Zachariah and the Israelite people, were unable to fulfill their responsibility. Throughout the 4,000 years of restoration course, God had to find the very Son of God but eventually God had to put him on the cross. Do you believe this was the intended destiny for Jesus? He could not have the environment for his mission at that time and Jesus had to say that he will come again and conduct the Matrimony of the Lamb.

The Christianity was created thanks to the emergence of the Holy Ghost. In the beginning (of their course), however, there were so many (extreme) persecutions. It was only in 313 AD that Christianity became recognized by the Roman Empire. It then spread throughout Europe, Great Britain, and the United States.

So, the occidental was based on Christianity; but, they could not realize the real meaning, the purpose (of Jesus' coming and mission). They embarked upon the global providence, but they were focusing on their individual interests and unable to expand their sphere wider than that.. However, the providence of God already declared that he has to come again. Therefore, God had to create an environment where the Christ will come again. That is why a new (heavenly) nation and people had to be prepared (strong like the Roman Empire but with religious freedom to protect that Second Coming). That was the United States of America.

Heavenly Father cannot use a nation or a family who failed once because they would have the indemnity courses to be fulfilled. Therefore, God declared the re-emergence of the Son.. So (also), He had to create and find out a new nation where the only-begotten Daughter can be born. That is none other than Korea, from among the Korean people. Until 400 years before Christ, the special nation was prepared. Again, Heavenly Parent would find out a people that were very good at astrology and developing agriculture, a people that loved agricultural work and loved peace. The Korean people loved peace and therefore, they were chased out until they settled in the Korean peninsula.

Heaven's providence has to be continued. For the last 2,000 years humanity has waited and waited; so, the only-begotten Son has to meet the only-begotten Daughter, none other than that only-begotten Daughter. None other than that. The begotten Daughter, based on the Christian foundation was born completely separated from Satan. She has to be born as being able to be declared by God as 'My own Daughter.' In 1943, She was born! (Applause)

In 1945, the liberation happened and immediately after that, Korea was divided into two, the democratic realm and the communist realm. Both were established by the independent heroes in the past. Why was Korea divided? Why were there two Koreas? Heavenly Father had to wait for the growth period of the begotten Daughter, just as He had to wait for the begotten Son to grow and complete His mission. The begotten Daughter also is required to fulfill Her own responsibility. So around Chosun, among the faithful groups, She was put in with those groups; but because of the division between the South and North and the North becoming communist (and very dangerous), She could not stay there. If I were put there, Heaven was concerned that (I would be in danger) I would not be able to fulfill my responsibility; so,

Heaven let Me go to the South.

In 1950 War broke out and the South was defenseless, but miraculously Heaven mobilized the UN forces with the US army sent to South Korea. Why were they sent, for whom? Heaven could not be without the providence of God; and, the True Parents are the Ones to fulfill the dream of God. The True Parents had to be established. That is why God had to mobilize the UN armies.

In 1960 we were married in holy matrimony. It was supposed to be with cooperation of the Christian realm; but, as it is written in Genesis, (first) the (evening) and night comes and then morning comes, the first day. Christianity (did not understand that they were in the evening and needed to wake up to attend the morning) was unprepared to receive the First Day, so the True Parents had to tread (many extreme difficulties) on the path from the very beginning the last 60 years, (every step of difficulty) from the first step.

Why do we need the True Parents. As the fallen people, we cannot stand before Heaven. The fallen people had to pay indemnities for the ancestors who also fell; and, unless they were born again, they cannot stand in front of God. (How are they completely born again as necessary?) That is the Blessing Ceremony which the Family Federation for World Peace has been teaching and practicing throughout the world.

How much the humanity has been waiting for this moment of grace... Six thousand years have passed according to the Bible; but actually, it must be longer than that (since the beginning)... Only then, the True Parents would re-emerge... The nations, the world of 7.4 billion people are still unaware of this very fact of the True Parents.. What shall we do for them? Those who recognize this fact, those who have received the Blessing, they must fulfill their responsibility, that is the responsibility of yours as the heavenly tribal messiahs.

Therefore, today I am wishing you to become the new (heavenly) Osaka, the (truly) proud Osaka... not new, it means heavenly Osaka. For that purpose, are you ready to fulfill all your responsibilities? Today, through many great performances our 2nd and 3rd generation children showed wonderful, proud performances... (Didn't they do very well? They did very well.) Then, as the center of the providence, True Parents have selected Japan as the mother nation, South Korea gave birth to the True Parents as the father nation, Japan as mother nation. What is the essence of mother? for the sake of children... indiscriminately mother helps children for their success, fulfillment and happiness by all means.

All mankind wishes for peace but in reality we cannot see a peaceful world. It becomes more distant. But the key is in our possession. We have the key, because through the True Parents we can produce the 2nd and 3rd generation of Blessed couples. and they could stand in the center. Korea, Japan and the United States, these three nations should stand in the center establishing the Pan Pacific Realm... the Pacific Rim Region... becoming the light of the people. These children are spreading around the world. This path, this movement is what God really wishes, what humanity really hopes to realize as one family under God.

This hope will be realized not in the far distant future, my brothers and sisters, my families, tribes, it is when we achieve the tribal messiahship. Then in that day, the day of hope will come in front of us. Especially, this Osaka region, as I understand was the gate to the world. Therefore, as the new heavenly Osaka region of God, the Hyo Jeong culture, the revolution of heart together with God, Heavenly Father, you should convey the truth that we are really with the true God and True Parents. Introduce this fact to the world! (applause)

After so many sufferings of Heaven, through so much endurance and patience of humanity waiting, now we are attending The True God and True Parents. The begotten Daughter is alive. While She is alive, we can realize the Kingdom of Heaven on earth Isn't this exciting? Why don't we go ahead with that ideal and expand it to the world. I really wish that will happen.

The Osaka God people, will you come and stand in the front line?
