The background of the entire page is a high-angle, wide shot of a massive crowd of people at what appears to be a festival or concert. The crowd is dense and diverse, filling the lower two-thirds of the frame. In the upper portion, there is a large, stylized graphic of a person with arms raised, rendered in yellow, green, and purple. The person's head is a solid green circle, and their body is a yellow shape with green accents. The overall color palette is bright and celebratory.

WHAT IS THE GLOBAL PEACE FESTIVAL?

Over the past two years Global Peace Festivals in more than 20 countries have brought people together in an unprecedented way united by the vision of creating “One Family Under God.”

The Global Peace Festival is an idea whose time has come, bringing a new hope for peace through—

Promoting interfaith cooperation: Peace among faith traditions cannot come about through mere dialogue or through “tolerating” one another’s prayers and rituals. A true interfaith experience is a celebration of the core principles, values, and aspirations that bind all people together as one family.

Strengthening marriage and family: The family is the cornerstone of peace. We use familial terms to describe the closeness of any relationship saying, “that person is like my father, like my mother, my brother, my sister, my son and like my daughter.” Therefore, the family should be the school of love where we learn to love all humanity in its richness and diversity.

Building a culture of service. The Global Peace Festival is promoting a spirit of volunteerism and peaceful cooperation around the world. Communities and nations are being transformed through our efforts to build a culture of service rooted in the peace philosophy of “living for the sake of others.”

"When people from Jerusalem and other trouble spots embrace each other in tears of forgiveness and reconciliation on the stage, it moves people of all faiths in the crowd."

—Rev. Paul Murray
Executive Director, GPF USA

"The Global Peace Festival is a strong ally for peace in Mindanao. We are now in a renaissance period, this is the dawning and awakening of a new era."

—Dr. Estrella Abid Babano
Philippine Department of
Education Region 10

"I saw how small, how perfect our planet really is, and then I reflected on all the conflict and suffering we cause each other, and I decided I had to do something about it."

A large crowd of people is gathered in a stadium at night. In the foreground, a woman is wearing a white uniform with blue accents and a white hat. She is holding a large green flag. “Although Brazil has its full share of social and economic problems, the most urgent problems facing our 180 million people are not primarily material or economic, but moral and spiritual. Governments can’t solve these problems alone. We have to empower our nation’s youth and heal our families. We need to restore our traditional values.”

The Global Peace Convention brings together key leaders in the realms of politics, civil society, and religion to discuss creative approaches to pressing global problems based on interfaith cooperation, strengthening marriage and family, and promoting a culture of service.
